teachers and professors. Access codes and supplements are not guaranteed to be included with used books. May have used stickers on cover. Ships same or next day. Expedited shipping: business days, Standard shipping: business days. Ships same day or next business day!

Used books may not include working access code. Pedagogical tools designed to convey important lessons allow students to improve their understanding of the core narrative. Critical-thinking questions at the end of each chapter prompt students to consider a key issue discussed in the chapter. In Sum review sections help students review important points within the chapter before moving on. Dynamic content designed for the way today's students read, think, and learn brings concepts to life. Videos and interactives integrated directly into the author-created narrative keep students engaged as they read through each chapter.

Hearing from the Students videos feature students discussing the main points of each chapter. The Pearson Originals docuseries is a series of high-quality social impact videos that exemplify and humanize key sociological concepts. These videos illustrate a variety of social issues and current events, creating opportunities for students to further develop their understanding of sociology. Embedded videos support the down-to-earth approach with news footage and stories that reflect real-life examples of sociology.

Students can revisit major historical events including critical points in the Civil Rights movement and view videos through a sociological lens. Data-rich interactives engage students and invite them to interact with text, figures, and photos. Enhanced images of historic photos and documents allow students to zoom in to gain different perspectives of the image. Simulations guide students through charts and graphs, helping them to see how the many parts of a topic are related. Hearing from the Author audio clips feature author Jim Henslin reading the opening vignettes and commenting on the photo essays, personal photos, figures, and tables he wants to highlight in each chapter. Content is available both online and offline, and the app syncs work across all registered devices automatically, giving students great flexibility to toggle between phone, tablet, and laptop as they move through their day. The app also lets students set assignment notifications to stay on top of all due dates.

The Revel audio playlist lets students listen and learn as they go. Assessments tied to primary chapter sections, as well as full chapter exams, test student understanding of the concepts presented in the chapter and provide immediate feedback. These assessments allow students to test their understanding of the material as they read as well as enable instructors to track progress. The writing functionality in Revel enables educators to integrate writing — among the best ways to foster and assess critical thinking — into the course without significantly impacting their grading burden.

Self-paced Journaling Prompts throughout the narrative encourage students to express their thoughts without breaking stride in their reading. Assignable Shared Writing Activities direct students to share written responses with classmates, fostering peer discussion. Essays integrated directly within Revel allow instructors to assign the precise writing tasks they need for the course. Highlighting, note taking, and a glossary let students read and study however they like.

Educators can add notes for students, too, including reminders or study tips. Superior assignability, tracking, and pedagogical tools help educators make sure students are completing their reading and understanding core concepts. The assignment calendar allows educators to indicate precisely which readings must be completed on which dates. This clear, detailed schedule helps students stay on task by eliminating any ambiguity as to which material will be covered during each class. When they understand exactly what is expected of them, students are better motivated to keep up. The performance dashboard empowers educators to monitor class assignment completion as well as individual student achievement.

Actionable information, such as points earned on quizzes and tests and time on task, helps educators intersect with their students in meaningful ways. For example, the trending column reveals whether students' grades are improving or declining, helping educators to identify students who might need help to stay on track. With single sign-on, students can be ready to access an interactive blend of authors' narrative, media, and assessment on their first day. Flexible, on-demand grade synchronization capabilities allow educators to control exactly which grades should be transferred to their LMS Gradebook.

Revel is built for digital learning, but we've got you covered if you need print, too. Revel gives students everything they need in an integrated digital learning environment. But if students need a loose-leaf print reference to complement their Revel experience, they can purchase one from within their Revel course at any time. New to This Edition. Table of Contents 1. This book may be a custom edition only available through your bookstore. Save money by searching for another book above! Supplies Publisher: Pearson. Read more author Jim Henslin takes students on an intellectual adventure of discovery through firsthand accounts of his travels around the world, original photographs, and personal reflections. Using his hallmark down-to-earth approach, Henslin presents a relatable, sincere, student-friendly narrative that centers around a traditional three-perspectives framework.

The 13th Edition of Henslin's brief text includes engaging new content — such as the Pearson Originals docuseries, Applying Sociology to Your Life feature boxes, Hearing from Students videos, and Hearing from the Author audio clips — all of which help students gain a better understanding of both society and themselves. Fully digital and highly engaging, Revel replaces the textbook and gives students everything they need for the course. Informed by extensive research on how people read, think, and learn, Revel is an interactive learning environment that enables students to read, practice, and study in one continuous experience — for less than the cost of a traditional textbook.

In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use Revel. Online Buyback Sites. ValoreBooks Loading.. SellBackYourBook Loading.. BookMob Loading.. Our buyback partners are not buying this book at this time.
