

ICARE IC20 ACTIVEX MATTRESS

- The middle of the range IC20 proves to be popular for most.
- The medium feel provides a soft feel but excellent support.
- How pressure care works with the IC20: The IC20 mattress is heat and pressure sensitive which means that as it gets warmer it becomes softer. So when there is a pressure point developing which usually gets hot and enflamed, this area of the mattress will become softer which allows the blood to flow freely again.
- Anticrease XP base to allow easy contour for any profiling bed.
- Waterlow ≤ 20 .
- Immersion Rating: Medium.
- High Risk - This rating is based on our average peak pressure of $<19\text{mmHg}$.
- Pair with an Icare bed or suitable on any base platform.

Warranty

10 Year Limited Warranty

Compliance

IEC 60601-2-52:2009
