

NEIGHBOURHOOD NETWORK

“We are all in this Together, Together”

Words and Music by Christine Clarke

Written at outbreak of pandemic

30 March 2020

CHORUS

We are all in this together, together as one.
We are all in this together, oh yes we are.

Verse 1

We all must live in hope and we do not let despair,
Change our way of life for love of all to share.

CHORUS

We are all in this together, together as one.
We are all in this together, oh yes we are.

Verse 2

The misery the loss from this pandemic virus,
Makes us all rethink of the important things to us.
Our loved ones we cherish and those we do not
know,
All rely on one thing we're not in this alone.

CHORUS

For we are all in this together, together as one.
We are all in this together, oh yes we are.

Verse 3

Our leaders who they be in home, in work, we see.
A common thread of thought that makes us work
as one great fort.

We go without, we give, be it in workforce or in
kin.

We know there'll be an end one day,
We're strong enough to not give in.

CHORUS

For we are all in this together, together as one.
We are all in this together, oh yes we are.

BRIDGE

Solo music

We thank all those who gave not just their time,
But their efforts and their lives for us to survive.

CHORUS

So, we are all in this together, together as one
We are all in this together, oh yes we are.
