

# Citrus Park 50+ Softball League

## Men's Player Placement Regulations

### Amended April 13, 2021

#### Player Placement – Player Rating Committee

The Player Rating Committee begins its work before a new season by holding sessions to rate new players as they register and to re-rate players coming off an injury/illness, a part season or a missed season. The re-rating process is continued throughout the playing season by the Committee and near the end of the season when the team managers become involved in adjusting the master list.

1. New players who register before November 15<sup>th</sup> will have to be evaluated by the Player Rating Committee and placed on the master list when it is compiled by the Player Rating Committee and may be placed on a team. Players registered after November 15<sup>th</sup> must be rated and will not be placed on a team but rather on the reserve list. The Committee will attempt to rate the reserve players as A, B, or C ( A, being highest) within their ranking number to assist in substitution placements.
2. Player rating is an ongoing activity in the Men's League. Players may have to be re-rated before the new season begins because the Board may request it or a player may request it. Rating, when required, should take place ASAP. Player rating should take into account speed, skill in fielding ground balls, catching fly balls, batting, baseball knowledge and know-how, and eagerness to play!
3. Near the end of each season, between the last game of the regular schedule and the last game of the playoffs, each manager will submit to the Player Rating Committee a list of the players on his team, rated from one to eleven, one being the best. It is understood that there may be more than one player at each rating level and none at some. Managers will use all information at their disposal to complete this task. Players should be assessed on their defensive skills as well as their offensive skills.
4. The Player Rating Committee will compile and print a list of the ratings exactly as submitted by the managers.
5. The managers will meet with the Rating Committee, chaired by the Rating Committee Chairman, discuss each player, and further rate all the players grouping them into ratings. There can be any number of players in each rated group. **After the rating sessions, the Player Rating Committee will integrate players onto a master list ranking all the players from the best to the not-so-best.**
6. Before the teams are picked by the Team Selection Committee for the new season, the Rating Committee may have to adjust the master list (players skills may have changed, some players may not be available to play, new registrations may have occurred, etc.)
7. When the list is finalized, it should be given to the Team Selection Committee.
8. A player's rating may change (up or down) during the season. If this happens, his new rating will apply only when he is used as a substitute player. The Player Rating Committee must notify the Player Substitution Committee of any new ratings.

#### Player Rating Guidelines

1. Players may be rated for the following reasons:
  - a. New to the league
  - b. Re-rate due to injury or illness
  - c. Re-rate due to a season or more of inactivity
2. Players will be rated in five (5) categories:
  - a. Throwing
  - b. Running
  - c. Hitting

- d. Fielding
  - e. Softball awareness
3. Players must meet the following minimum requirements:
    - a. Must be able to throw from second base to first base.
    - b. Must be able to run from home plate after hitting a ball in 6 seconds or less
  4. Players meeting above minimum requirements shall be placed on the 'active' reserves and will be eligible for team selection or team substitution.
  5. Players not meeting the above minimum requirements shall be placed on the 'non-active' reserves and will not be eligible for team selection or team substitution. Non-active reserves may still play in reserves practices and games.
  6. Non-active reserves may request to be rerated for 'active' reserve status when they are able to complete the minimum requirements stated above.

## Player Placement – Team Selection Committee

### Committee

The V.P. Player Placement will chair the Team Selection Committee and select members at his discretion. **The V.P. Player Placement will chair the Team Selection Committee. The committee will consist of the V.P. Player Placement, the President Elect/Secretary, the Registrar, the Player Ratings Chair and two or more persons chosen at the V.P. Player Placements discretion.** The Committee may access the Registrar and possibly past committee members for information and process continuity.

### Note - Family Members:

Men who have members of their families who would like to play on the same team must formally send a request (letter) signed by the requesting family members, to the Selection Committee before the Selection Process is begun (November 15). The Selection Committee will consider the request, given that the players making the request are not of the same rating, the request is workable within the "weave" process and the request would not negatively impact other teams.

### Selection Process

1. The Player Rating Committee should preview the rating master list prior to the season and make necessary adjustments to player rankings, giving consideration to player's medical/health changes or obvious playing changes observed during preseason play.
2. The Team Selection Committee should get the master list compiled by the Player Rating Committee after November 15<sup>th</sup> (the last day of registration for the coming season) and the information from the Registrar collected at registration before beginning the selection process.
3. The first step is to recommend to the Executive, for approval, the number of teams that will be formed for the coming season. When this number of teams is finalized, notify the scheduler.
4. This committee will be responsible for creating the reserve list. Players put on the reserve list who did not request it at registration must be those that registered most recently and must be new players to the League. **All players in their second year or more should be placed on a team!**
5. When the number of teams is determined, the Master List is then divided into the same number of rated groups as there are teams e.g. if there are 20 teams, the first 20 names on the Master List will be number 1's, the second 20 names on the Master List will be number 2's and so on. Each player is then assigned to a team by the Committee using the following method:
  - a. the #1 players are placed one to a team on the first line from left to right, the #2 players are placed one to a team from right to left on the second line, the #3 players are placed one to a team from left to right

on line three, and so on until all players have been placed. As an example, the placement for 9 teams with 11 on a team is below.

	<u>T1</u>	<u>T2</u>	<u>T3</u>	<u>T4</u>	<u>Y5</u>	<u>Y6</u>	<u>T7</u>	<u>T8</u>	<u>T9</u>	
	→ 1	2	3	4	5	6	7	8	9	
		18	17	16	15	14	13	12	11	10 ←
	→ 19	20	21	22	23	24	25	26	27	
		36	35	34	33	32	31	30	29	28 ←
	→ 37	38	39	40	41	42	43	44	45	
		54	53	52	51	50	49	48	47	46 ←
	→ 55	56	57	58	59	60	61	62	63	
		72	71	70	69	68	67	66	65	64 ←
b. An	→ 73	74	75	76	77	78	79	80	81	← exception to the above
method is in		90	89	88	87	86	85	84	83	← the selection of the 11 <sup>th</sup>
players for	→ 91	92	93	94	95	96	97	98	99	← each team. Because
there is an										uneven # of players on a
team, this										method of selection may
										give some teams an advantage, therefore, the selection of the 11 <sup>th</sup> players should be made by a
										process of allocation by the Committee.

6. When all players have been assigned, the committee should adjust the teams to ensure that each team has a balance of talent e.g. overall skill (speed, batting ability, etc.), outfielders, infielders, pitchers, catchers, and managers.
7. The teams are then matched to a sponsor using some random selection method.
8. The teams will then be presented to the Men's Executive for final approval. If accepted, the Teams Selection Committee's work is done.
9. The teams will be announced immediately following Board approval!
10. Initially, the Team managers will be the #1 rated players on each team. Following the announcement of the teams to the membership, the assigned manager and his new team may elect to assign another player or registered league member as manager. If teams assign a new manager, they must be identified to the Men's Executive for approval.

## Player Placement – Player Substitution Committee

The Player Substitution Committee is responsible for arranging for the substitution of all players who are not available to play due to injury, sickness, absence etc. It is the responsibility of each team manager to inform the appropriate Committee member to make a substitution. At no time should the manager of a team attempt to make those substitution arrangements or to influence the selection of a substitute player.

All players are requested at the beginning of the season to identify their willingness to sub. Substitutions will be made from the list of those who have agreed to sub. Players may, at any time, be added or deleted from the substitution list.

The process for determining an appropriate sub follows. This process will be adhered to, if possible, when selecting replacement players; however, there may be occasions when this process must be tempered to facilitate the playing of the game. The important thing is to play the game.

### Substitution Rules

1. Regular players who are requested to sub will be requested according to the five-up and five down rating order, whenever possible. This means the Substitution Member will select from 5 players up or down from the rating of

the player being replaced. Eg. A player rated as a 412 could be replaced by a player rated between 407 and 417. If a player is rated at the beginning or the end of a rating category, it may be necessary to go up or down to the next category. Eg. A player rated as a 403 may be replaced by a player rated between 318 and 408. Substitutions may be made outside the 5-up/5-down rule as a way of equalizing substitution play within the player category, while also maintaining competitive play. A refusal will count as a game played for equalization purposes.

2. Substitute players will be requested from the reserve list **first** according to their rating if they are not playing game day. The five-up and five-down rating order (see #1) may not apply to reserve players, however, an attempt should be made to select a Reserve player (A, B, or C) who appears to be close in rating to the player being replaced.
3. The substitute player must not sub more than one game per day
4. No substitute player may play two consecutive games for the same team
5. If a pitcher is assigned as a replacement, he must pitch if he is of a higher rating. If he does not have a higher rating he may play any position as decided by the team manager.
6. Substitute players replacing a non-runner will also be a non-runner.
7. Reserves will not be used as substitutes during the playoffs unless approved by the Player Substitution Committee.
8. Stand-bys will only be assigned during the playoffs or when decided as necessary by the Player Substitution Committee.
9. Once a replacement has been assigned, that replacement player will play even though the replaced player may want to play or is able to play. Replacements can only be reversed before 9AM game day.
10. Order of substitution requests **prior to game day**:
  - a. First from Reserves and teams which are not playing that day following Substitution Rules.
  - b. Second, from all other Teams following Substitution Rules.
11. On game days, a substitute may be required just prior to the beginning of a game or during a game. Field Player Substitution Members will be at the ball diamonds for this purpose. A player of equal or next lower rating will be assigned drawing from players who are in the vicinity. The idea is to get the game underway ASAP. During this selection process, the manager or acting manager of the needy team shall remain with his players and in no way aid, accompany, nor influence the selection of any replacement player. The selected substitute player must be accepted. Game play will resume when the umpires and managers of both teams and the official scorekeeper have been informed of the replacement player by the Field Player Substitution Member.
12. All Field Player Substitution Members have the responsibility and power to assign replacement players. This process should be organized so that:
  - a. there is always someone at the park to provide replacement players,
  - b. Player Substitution Members who are playing do not provide replacement services for either a player who is playing on his team or the opposing team, and
  - c. there are not two people assigning replacement players for the same team and causing conflict!
13. If the Player Substitution Committee can justify the move, permanent placement from the Reserves List for the remainder of the season will be made according to the player's rating and his order of sign-up.
14. It is important that managers notify the Chairman of the Player Substitution Committee as soon as they know that they will require a player either permanently or temporarily.
15. Players required as temporary replacements will be assigned one game at a time.
16. At any time during the season, the Player Rating Committee shall adjust the rating of those players who may have been rated incorrectly at the beginning of the season. These new ratings **will be used for player substitution and replacement purposes only**. The Player Substitution Committee must be informed of the changes.
17. Any player assigned to a team and not available for the first **four** games of the season will be placed on the Reserve list. Any player missing **six** games in a row will be placed on the Reserves. Players attempting to return after missing **three** or **five** games according to the above situations, must compete a full game to start the **six** game clock again.

18. A player may request a transfer to another team once during the season. Such request must be presented to the Men's Executive in writing for approval and action.
19. During the playoffs, no player may substitute for the same team twice during the same playoff series, i.e. single elimination series/double elimination series.
