CSA SUMMER SHARE WEEK 14

BackPorch Produce Weekly Newsletter

This weeks items:

- ⇒ Acorn Squash
- ⇒ Watermelon
- ⇒ Pie Pumpkins
- ⇒ Zinnias
- ⇒ Tomatoes
- ⇒ Red Potatoes
- ⇒ Green Peppers

Our beefsteak tomatoes are now succumbing to the late blight as well sadly. We will still have tomatoes for about another week to ten days. It's been a very wet year and that's just how it goes sometimes, we were blessed with a LOT of tomatoes before it took over at least. The meat chickens arrive this week as day old chicks as this is a breed we don't raise for egg laying only meat so we don't incubate them ourselves, simply purchase and raise.

What is Acorn Squash?

Acorn squash is another variety of winter squash. So simple yet absolutely delicious. They are probably one of my absolute favorites in the vegetable department.

I'm going to use this picture again as this same chicken now hops in anyones open vehicle it's so hilarious. The chickens have been enjoying some watermelon this week now that they are all almost ripe now we have quite a few around.
