And she read it in about 3 days of reading and I think she was impressed at her ability to read longer stories. The story itself was good - nothing too impressive, but engaging For our fairy-loving second grader, this book was a bit of a challenge. The story itself was good - nothing too

impressive, but engaging and entertaining for elementary school age children probably more for girls. We will be sure to read more books in this series, and I'm glad that our oldest is expanding her tastes, if only a little bit. Aug 29, Tayla added it. To view it, [click here](#). Now, I enjoyed this book series as a kid. I recall reading each book when I was in Year 3. I decided to re-read the whole series again to see if it holds up, but I am afraid that it does not. First of all, there are the characters in the book series. After this first time, Lauren only has to recite the secret spell without anything else.

There is much more to the lore of the series, like Arcadia itself, how the unicorn cycle works and the magic system but that is a general idea. Lauren Foster is a very flat and sometimes unlikable character. She has nothing that defines her besides being horse-obsessed, and she often makes brash decisions that cause more trouble than what is needed, such as arguing with Twilight or her friend Mel whenever they are stuck in a snowstorm or fire hazard.

Not only that, but the book series also focuses too much on Lauren - almost at times pushing Twilight aside. Twilight is a boring character. Furthermore, because he is dull as a funeral service on 0. However, the book series is more worried about Lauren and her problems. There is also missed potential with other characters. After reading Book 10 Twilight Magic where Lauren saves Jade, I thought the next book would have been about Lauren and Mel making friends with Jade and Monica, finally putting their rivalry to rest and getting to know them better. However, it did not do that. There is also a bully girl named Kate in Friends Forever, who excludes Lauren from her circle of friends when Mel reunites with them.

While Kate does do some genuinely terrible things such as moving the flagposts in a game of Capture The Flag, she does not have as much character as she should have. If Kate was more manipulative and gaslight Lauren and Mel into thinking they should not be friends, then she could have been a more genuine threat.

There is also another Unicorn Friend named Michael who is one of the few people that knows that Twilight is a unicorn, but the series does nothing with him. Not to mention, the magic system in the series as well as keeping Twilight a secret gets increasingly inconsistent and contrived. For example, in Friends Forever Book 7, Twilight is turned into a unicorn in broad daylight in a clearing where anybody could see what was happening, but nothing comes of this. Another example is Book 13 Moonlight Journey, where we finally get to see Arcadia, but much of Arcadia feels unexplored, underdeveloped, and the illustrations make Arcadia look bare and boring.

It does not help that the book series rushes over all the fantasy elements like they are not much of a big deal, which undermines the magical value of what we are experiencing. What is Arcadia, and who are The Unicorn Elders? Who is Sidra? Twilight already knows this, but how? How did Mrs Fontanta learn about unicorns? Who invented the Keeper Of Magic system with the magic resources in the first place? Things feel missing in the book series! It fails to introduce, build or set up any of the concepts. Sure, they spend plenty of time together, but their scenes feel more forced rather than natural - and the dialogue often feels like the characters are saying what they are expected to say, rather than wanting to say it.

For example, Lauren often says that she loves Twilight as both a pony and a unicorn, but because they cannot communicate with each other when Twilight is a pony and only share their most intimate scenes when Twilight is a unicorn, it makes her statement meaningless. Several books will tell you that the success of this duo is due to them working together, but you will quickly see that Twilight does not need Lauren at all. There are times when Lauren is disadvantaged because she does not have magical powers like Twilight, and it feels like the conflict could have been easily solved if Lauren was written out entirely. I am okay with Twilight being an independent hero, but when the book series tells me Lauren and Twilight need each other, I call nonsense on that nonsense! And despite the book repeatedly says women have more magic, all the guards are men too.

With all the unnecessarily detailed sex scenes it feels like the author created a fantasy club with handsome muscles. Lastly, the book also suffers the usual self-publish syndrome: words missing, misspelled and even an editing note left in there Thankfully it was a free book, I'd have been quite upset had I been paying for it. I will not continue the series. Jan 27, Josie Jaffrey rated it liked it.

This was a good fantasy read. VanLone has created a detailed and authentic world with great potential. The characters were well developed, the language accessible and the story gripping. This is a bit of a coming of age story with a young, headstrong princess character discovering that her actions have far-reaching consequences and that responsibility cannot be shirked no matter our own selfish desires. A detective story mixed with fantasy and the modern setting was particularly enjoyable. The This was a good fantasy read.

The good: I'm looking forward to reading more about this world. It's been well developed and I'm sure there is a lot more to come from all the different powers that have been set up. The bad: I found Tarian particularly unlovable. Selfishness and stupidity have limits. Quite frankly she deserved to be chopped up by a demon until very near the end when she finally realises she's a total brat. I found it very hard to sympathise with her plight, she was totally undeserving of her lovely family and friends and acted very young for a 20 something. It would have been more plausible had she been in her mid teens. The ugly: The inevitable bad editing. Someone needs to fill in all the missing and incorrect words please! The quote: "What's so wrong about that? I'll be back in time for the next meeting."

Nov 03, Talea rated it really liked it. This review has been hidden because it contains spoilers. To view it, [click here](#). One of a free books from BookBub. It wasn't what I was expecting but it had me hooked from the first page. Tarina is a strong independent woman whose destiny is to one day preside and provide leadership over a large group of magic wielders. She fights this destiny by going out and bounty hunting which is when a magical being from a different dimension marks her for some nefarious purpose.

Can she find out whom is pulling the strings and accept her destiny? I thought the magical elements of the s One of a free books from BookBub. I thought the magical elements of the story were strong, but there were a few things that bothered me about the whole every man wants to get in my pants vibe that the main characters seems to find herself in. And the magical ritual to get pregnant seems to be overdone. Other than that, the author knows how to write a solid keep your attention novel. Melinda pens "Stronger Than Magic" in a well developed, smooth flowing, original plot with strong characters.

A great start of a series that takes you into the magickal and paranormal world with a touch of romance. I totally enjoyed the book and can't wait for the next in the series. Highly recommended for all paranormal, magickal, romance fans. This review is based on a complimentary copy from the author which was provided for an honest review. Jul 08, Kathi rated it liked it Shelves: series-to-finish. It starts right away with some action and sets up the main character's conflict pretty fast, but I could not bring myself to care about her or what was happening. Interesting premise, but it is not well executed. I was also put off by the amount of "pooling between her breasts" and "settling in her groin". Not the kind of fantasy book I was expecting

Well written, very original but too much blood and gore for my liking. I enjoyed it but I'm not a blood and gore fan and there is a lot of very explicit violence so I found myself skipping paragraphs feeling slightly repulsed and yet wanting to get on with the following turn of events!. The story is very appealing. It's unusual and fast paced but I prefer to leave certain scenes to each person's imaginations. Then again this is only my very personal opinion. This book was well written and for the most part was quite enjoyable.

My main problems with the book was the lack of any up front information which sometimes made it harder to get into the story and the main character. She is the poster child for people who will cause most of the problems in their own lives. Still, it was a good story and one that you'll find a fun way to spend a few hours. Sep 20, Kayla rated it liked it. I went in expecting to not really like this book but it was actually quite enjoyable. It was kinda hard for me to get into at first but once I got past the first few chapters I was hooked. Is that a thing lol, I just had a hard time trying to pronounce some of them. I would recommend to a friend. Warning Before you read this book make sure you can. It's so good it's addictive there is so much going on you probably think quite a few are guilty but keep reading even then you don't really know who they are until they're uncovered fab.

Pretty good At first it was difficult to read about Tairien, she was so irritating. This time, the demon just happens to be real. Tarian Xannon stands to inherit the water artifact, one of four elemental objects that grants the user enormous power and responsibility. But when Tarian is blindsided by a demon-like creature who steals her blood, it launches a chain of events that marks the beginning of change for her family and the world. As Tarian struggles to contain the chaos, her world unravels. Each step she takes makes things worse. Details if other .: Thanks for telling us about the problem. Return to Book Page. Stronger Than Magic by Heather Cullman. In this enchanting romance, a cursed beauty and a man with an endangered soul are transported through space and time to be reunited in Regency-era England for one last chance at redemption—could their love be stronger than the spell that binds them? Born to a faerie father and a mortal mother, Lucan lacks one thing: a soul.

To become complete, he must fall in love. When he In this enchanting romance, a cursed beauty and a man with an endangered soul are transported through space and time to be reunited in Regency-era England for one last chance at redemption—could their love be stronger than the spell that binds them? When he does—with spoiled, willful Alys le Fayre—his life ends tragically.

Too late, Alys realizes that Lucan was her soul mate. The catch? But Alys has other plans. Heather Cullman delivers a timeless romantic tale about two people whose love transcends time, fate, and intervention—both human and otherworldly. Get A Copy. Paperback , pages. Cursed, she's been living in fairy limbo for the chance to make things right, the find the hero's true love and save his soul before time runs out.

SO she's sent back to earth, to London, and meets the man not all at all like the man she knew. Her knight was king, generous with his love and with his laughter. This man is cold, heartless-his soul spent too long in darkness which has turned it to stone. He feels neither joy nor happiness and has zero tolerance when it comes to the silly notion of love. Only his sense of honor drives him to accept the heroines as his ward but one look at her and he realizes it'll take a miracle to find a man willing to marry her.
