See what others think

JH Computer Services - South Perth, W.A
Computer wholesalers, resellers and distributors.

Because JIWA is a MS Windows-based, little training was required. The on-screen facilities are very helpful. Anyone who is familiar with Microsoft products will have little difficulty adapting to JIWA. It resembles Access or Excel and links well with these products. JH Computer Services is now able to prepare an update sheet for all of its clients. The task is easily accomplished by JIWA. The benefits are obvious.
