

THE BRAN HOUSE  
EXECUTIVE ORDER 0001

**SHUT DOWN BANK OF VLAD DRACUL, TO AVOID INFLATION DURING  
DRACUL'S CURRENCY REVISION, PERTAINING TO THE BACKING OF NEW  
CURRENCY BY GOLD STANDARD**

*By virtue of the authority vested in me, by the Constitution of the Commonwealth of Dracul of 2017, it is hereby ordered as follows:*

Section 1. **Shut down Bank of Vlad Dracul.** The Bank of Vlad Dracul has operated as a simulated banking system, to determine how money and payments will be received and sent to the Commonwealth of Dracul, during the time of actual backed currency. The bank possessed 68,023,382 Draculian Marks, which would have resulted in a high level of inflation, once Draculian currency is fully established. This includes removing all banking accounts for Departments and individuals, with and without Draculian simulated currency. A new bank, under a new direction and name will be enacted, once the gold standard is established on new currency.

Section 2. **Remove Draculian currency from September 25, 2017 to November 27, 2018 from circulation, being passed off as legal tender, and being used as payment to government and civilian employees.** The current currency used is currently a novelty item. The current currency cannot be in circulation, or used as payment, even in a simulated manner, as its existence would cause inflation during the enactment of official Draculian currency. New currency, under the gold standard, will have specific markings, to separate it from novelty item currency.

Section 3. **Halt all payments of simulated currency to other micronations, until legitimate Draculian Currency is established.** As stated in sections 1 and 2, the existence of the novelty item currency poses as threat of inflation, during the future enactment of Draculian currency, under the gold standard.
