 Early Dismissal at 12:15 p.m./MAP Testing Meeting at 12:30 p.m.
 March 18th **No School – Spring Break**

THE BRIGHT SPOT: Today is another opportunity to learn anything you want.

STUDENT OF THE WEEK: Jordan McClure (GRADE 4)

- FAVORITE SCHOOL LUNCH: Nachos**
BEST GIFT EVER RECEIVED: a drone
WHAT MAKES A GOOD FRIEND: Being nice to others
IF I RAN THE SCHOOL: I would make sure that everyone would be nice.

I am proud to nominate Jordan McClure for student of the week. Jordan has been working very hard to improve his work academically. He takes his time, asks questions, uses and appreciates the resources given to him, and does his work to the best of his abilities. If he misses something, Jordan owns his mistake and learns from it. Jordan is very friendly and kind to his classmates and wants everyone to get along. He plays with all of his classmates and treats everyone fairly. I am very proud of you, Jordan, and I can't wait to see you continue to grow here at Hudson. – Mrs. Cooper

BELLS & WHISTLES to the Spring-like temperatures allowing us to be in session for a full, five-day week!

Preschool: We survived a full week! We learned about Dr. Seuss and read some great books! This week we will continue to work on lower case letters. We are almost all the way through the alphabet with uppercase and lowercase letters! Please work with your child on their birthdate. Some of us know the month but not the day, while others know the day and not the month. Keep practicing with them! We will work on patterns and matching this week! Have a great first, full week of March! **- Miss Stacie**

Kind: Happy Monday! Can you believe we only have 10 more weeks of school this year? This week's theme is Storms. We will get to talk about different types of storms, and compare/contrast different texts that are about the same topic. In Math, we will introduce counting by 5's in addition to continuing what we have been learning (counting money, telling time, etc.). During Phonics we will focus on "tricky" words. These are what we have been calling Heart Words. I hope you all have a great week! **- Mrs. Stewart**

1st/2nd: We start 4th quarter this week! Wow! Time has been flying! This week we will be talking about characters and setting in reading. We will continue discussing verbs in second grade. In first grade, we will continue discussing nouns and verbs and adding detail to our writing. We will begin a unit on goods and services in first grade social studies and both classes will begin a unit on energy in science. Both classes will have spelling and math tests on Friday. Please practice spelling bee words also. Have a great week! **- Mrs. Hird**

3rd/4th: This week in our class, we will continue to work diligently on mastering our math facts. Based on a diagnostic test that each student took in IXL, I have assigned subject matter for the students to be working on nightly. Also this week, we will have two spelling tests. One will be over our regular spelling words and the other will be over Spelling Bee words. On Wednesday, fourth grade will have a Science test over chapter 12. Third grade will have their Science test on

Thursday. Students should have a study guide. Please, let me know, if you have any questions. - Mrs. Cooper

5th/6th: 5th and 6th graders will finish their "Ode" poems in Writing this week. In Science, 5th grade will start a new unit on stars and galaxies and 6th grade will continue reading about light and color. In Reading, students will start a new Literature Circle over the book "Wonder" and will keep working through their Buckledown workbooks. In Social Studies, 5th grade will be getting ready to test over Ch. 3. They will also have a label Central America test this Friday. 6th grade will finish a unit on Ancient Greece. Be on the lookout for a letter coming home about a "Famous Person in History" Wax Museum project. Students will present their projects on the night of the student performance in April. Please bring in pop tabs for the 3rd quarter by tomorrow. **7/8 Comm. Arts:** Students will be getting some background information this week over WWI to prepare for their next Lit. Circle and will continue working through their CRA and C.A.R.S. workbooks. Have a wonderful week! - Mrs. Foster

5/6 Math: The new quarter finds the fifth grade working on finding the mean, median, mode, and range of data sets, multiplication and division of fractions, and an early look at transformations. In sixth grade, students are looking at interior angle measurements, the adding and subtracting of signed numbers, and types of ratio story problems.

Tests This Week: 5th Math: Wednesday, 6th Math: Thursday

7th/8th: The new quarter finds seventh and eighth grade working on pronouns in grammar. This includes subject and object personal pronouns, antecedents, demonstrative and interrogative pronouns, etc. We will also work in the health books this week. Seventh grade is looking at the role of nutrition in our overall health, while eighth grade is learning about the connections between our health and the environment. - Mr. Ewing

MUSIC: Lyrics will be home by the end of the week! - Miss Stacie

MARCH CHARACTER ED: PERSEVERANCE - continued effort to do or achieve something despite difficulties, failure, or opposition.

The younger students read the story "The Honest Prince". We talked about being honest and how lying hurts you and other people. We learned two quotes, "Tell the truth every time no matter what or others won't believe you," and "A lie is when you know the truth & tell a different story." Always be honest!

Please make sure students are dressed appropriately for the ever changing weather! Shorts aren't to be worn until after April 15th.

FEBRUARY ACADEMIC STARS: K: Bria Merryfield, **1/2:** Brayden Smith, **3/4:** Reid Davis, **5/6:** Beau Brownsberger, **7/8:** Baylor Brownsberger

IMPORTANT DATES: April 27: Student Singing Performance, **May 2:** Spelling Bee in Clinton, MO, **May 6:** Field Day in the Afternoon at Hudson R-IX, **May 11:** 8th Grade Graduation & **May 12:** Awards Assembly and Last Day of School

■ **When you're in the kitchen,** use measuring cups to help your child understand fractions. Use rice, water or popcorn and let your child find the answer to questions like these:

- How many times will you have to fill up the 1/4 cup measure before the one-cup measure is filled? (4)
- How many 1/4 cup measures will fill up the 1/2 cup measure? (2)
- Is 1/3 cup plus 1/4 cup more or less than 1/2 cup? (more)
