These teams were selected for each Division using a computer generated random selection process.

The regular season will be from January 11 to March 10.

A computer generated schedule of 16 games was finished first with some dates not completely filled with 6 games. This was followed by filling the vacant times manually resulting in the addition of 2 more games. Thus all teams will play an 18 game schedule during the season in which each team will play at least 2 games against teams in their own division and one game or two against teams in the other division.

Each team will play games on Monday and Wednesday with 9 home games and 9 away games.

March 15th has been set aside for a possible rain out day OR a possible playoff day in case there is a tie(s) for 1st place to determine the league champion.

The double elimination seeded playoff schedule will begin on March 16th. The seed for each team will be determined by the team's final record during the regular season. The winner of each division, as in past years, will be seeded as #1 and #2. Seeding for all ties of seasonal records will be determined in this order.

- 1. Head-to-head record**
- 2. Best differential between runs scored and runs given up**
- 3. Coin flip**

Once the playoffs begin, a bracket sheet will be posted both online and at each field. The bracket will be updated each day at both venues and online.
