

**MOLECULARLY
ACTIVE
ENVIRONMENTALLY
FRIENDLY**

Organic Concrete - Mortar - Grout Dissolving Agent

1x
Strength
Molecule R.T.U.

*Safe on metal, painted and plastic surfaces.
The small molecular size of **InsideOut** allows
it to penetrate deep inside concrete residues
and react from within.*

Readily Biodegradable >7days - 90%

Closed Bottle Test AEM SOP MI O5I-P, 100% Biodegradable per OECD guidelines

Meets ASTM G-31-72, Non-corrosive

Replaces Harsh & Dangerous Acids - SAFER

D.O.T. Non-Regulated as per 49 CFR 173.154 (d) (1)

Cost Effective - Dilutable 4:1

Xtremely Effective Dissolving Cement, Mortar, Grout containing:

- Portland blast furnace cement
- Portland fly ash cement
- Portland silica fume cement
- Masonry cements (mortars, stuccos)
- Expansive cements
- White blended cements
- Non-Portland slag-lime cements
- Non-Portland super sulfated cements
- Non-Portland Pozzolan-lime cements
- Non-Portland calcium aluminate and Sulfoaluminate cements

Made in the United States of America
