November 4, 2021

Dear Sponsors:

This sponsorship letter is a request for your organization to provide support to The Enhancement Foundation, 501(c) (3) with whom your organization has supported in the past or have discussed providing support to us in the future.

This year it is The Enhancement Foundation's goal to feed and provide at least 10 to 20 (or more) turkeys for needy families with children who do not have financial resources or assistance due to COVID to have a special Thanksgiving Mission Dinner. We would also like to provide meals for at least 50-100 homeless individuals for this year's 2021 Thanksgiving Day Missions Event.

We thank you in advance and look forward to either your donations or actual turkeys for families by November 19, 2021, so the Enhancement Foundation may distribute all the food by Monday, November 22, 2021, in time for the selected participants' preparation of their thanksgiving celebration dinners and also share dinners with the homeless.

Donations can be made on [DONATION OPTIONS \(enhancementfoundation.org\)](http://www.enhancementfoundation.org)

For those organizations that would like to sign up for turkeys and know those who are homeless and who need a dinner, please visit our website by clicking The Enhancement Foundation Homeless **Thanksgiving 2021 Meal Missions Drive and Turkeys for Needy Families and Children.**

The Enhancement Foundation was founded on the *premise* that we empower women who are singles or heads-of-household, and yet strengthen the entire family. This allows us to facilitate and improve opportunities not only for the disadvantaged, victimized, undeserved, underprivileged women, but also for the future of their children. Empowering women and improving opportunities for their children are the catalysts for positively impacting the future of the community.

Our *passion* is to be a holistic support vehicle for women in disadvantaged circumstances where there is a need to overcome systemic obstacles and barriers; to realize greater self-sufficiency and wholeness through acknowledgment and utilization of dormant, yet innate, creative God-given strengths, core competencies, proper supports and resources needed for their future and the future and legacy of their children.

The Enhancement Foundation

Thanksgiving 2021 Mission: Feeding the Homeless and Needy families with children

In January 2020, there were 580,466 people experiencing homelessness in America. Most were individuals (70 percent), and the rest were people living in families with children. They lived in every state and territory, and they reflected the diversity of our country.

Homeless programs and systems provide shelter for most people experiencing homelessness (61 percent). However, significant variation exists among subgroups. For example, children are often a priority for homeless services systems. As a result, families with children are least likely to be unsheltered (only ten percent of unsheltered people are living in families with children). However, young people not living with their families do not enjoy the same access to services—50 percent of unaccompanied homeless youth are unsheltered. Individuals experiencing homelessness on their own are particularly vulnerable. Most (51 percent) live in places not meant for human habitation. Those who are chronically homeless are most likely to be in these circumstances—66 percent are without any shelter at all.

Volunteers are welcome to join The Enhancement Foundation to ensure the success of our Thanksgiving 2021 Dinners and Turkeys Missions Event.

The Enhancement Foundation, Inc., (TEF) IRS Classified as Private Foundation Status:
