Program Information

NAYS/12Deep is super excited to introduce a new way for our players, your athlete a chance to show their skills. In the past few years, the program has been looking for ways to motivate our players to continue to want to get better. We now have that avenue for all our players to get the exposure that they need to get to the next level.

The program is proud to announce exclusive partnerships with Coach Makal Evans skills training. The program has decided to give our teams program sport specific training 2 times a week. This means that we can offer top notch professional training for your athlete at no extra cost to you, in addition the program will be playing in top level tournaments, throughout the season.

Sports Thread is our LIVE athlete's social media platform. The coolest thing about this platform is that you & your athlete control the content uploaded to the platform. The platform will allow you to upload unlimited video, photos, accolades or anything that you deem necessary a college/coach wants to know about you. Once you have things that you are ready to send out with the push of a button, literally, from your phone, tablet you can send your information to every single college in the country. SPORTS THREAD IS FREE so all you must do is use it. This is something that we are giving you as being part of our family. There are organizations out there that would want to charge you for this and control the content, why pay ours is free and coaches will start paying attention

We ask all our members to help with fund raisers. We have a couple that the player do themselves and a cookout that we do as a whole program

Sponsor Players Free Throw shots & 12Deep Family/Program Cookout \$25.00 per plate
