

# 3in1 Steaming Water Taps.

3in1 taps supply fresh cold water, regular hot water and filtered 98°C steaming water, the perfect temperature for preparing tea, blanching vegetables and assisting the cooking of pasta or rice.

Water conditioning technology provides exceptional accuracy for scale and acidity control for increased boiler protection, this means outstanding food and beverage quality.

Quick and simple installation allows the tap, filter and boiler to be easily retrofitted. Finished in stunning stainless steel, Vapos taps exude style and practicality.

## PROGRESSIVE VALVE

Control your Joya 3in1 tap with a simple rotating motion. The water flow starts cold and gradually gets warmer. The more you turn the control, the hotter the temperature whilst the water pressure gradually increases.

## OUTSTANDING WATER FILTRATION

Offering a new standard of water filtration technology, providing extraordinary accuracy for scale and PH control. This water filtration and conditioning technology effectively combines hardness reduction, mineral stabilization and corrosion inhibition by maintaining a controlled low carbonic acid level in the water.

It delivers the best available water quality for hot drinks by removing lime scale build up in the boiler [provided filters are installed and maintained/exchanged in line with manufacturer recommendations].

It includes DuoBlend® valve technology for the most accurate bypass ratio and a 5µm Carbon block membrane for particle protection, reducing tastes and odours such as chlorine and chlorine by-products, THM's, PAH's and pesticides such as Simazine, Atrazine, Lindane and Dieldrin. Each filter lasts approximately six months and is easily changed without tools.

## LARGE BOILER

A new large boiler capacity means 3.5 litres of steaming water is ready for use whenever you need it. With a temperature range of 25°C - 98°C it uses less electricity than a 40W light bulb.

# So, Here's The Technical Bit...

The cold water from your water supply passes through the filter into the 3.5L boiler. The water temperature can be easily adjusted from 25°C - 98°C to suit your requirements by simply turning the dial located at the front of the boiler.

For steaming water use the smaller lever on the left hand side of the tap. Push down the lever to release the child safety mechanism then turn and hold to start a steady flow of steaming water, when you are finished the unique spring loaded lever automatically shuts off the steaming water.

It couldn't be easier to change the filter. There is no need to cut off the water supply, just twist the used filter to release it - this automatically isolates the water supply making it easy to twist the new cartridge into place.

## JOYA 3IN1

Stainless Steel

JOY3IN1/CO - Copper

JOY3IN1/GD - Gold

JOY3IN1/SS - Stainless Steel

### GENERAL FEATURES

- Solid stainless steel with metallic PVD coating
- Supplies fresh cold water, regular hot water and filtered 98°C steaming water
- Includes touch control pressurised boiler
- Water conditioning technology providing exceptional accuracy for scale and acidity control for increased boiler protection, plus increased food and beverage quality.
- 3.5Ltr tank, up to 120 cups per hour
- Temperature range of boiler 25°C - 98°C

### TAP FEATURES

- Minimum 0.5 bar pressure required
- Safety mechanism for steaming water control
- Progressive valve hot/cold control
- Cool touch spout
- Separate flow for steaming water

### OPTIONAL EXTRAS

- PURIT13 Replacement filter
- FILTERMETER Digital water capacity meter

Available to buy online [www.caple.co.uk](http://www.caple.co.uk)

### DIMENSIONS

- 3 x 35mm worktop cut out required
