PhotoContest Pro is a program designed for Camera Clubs to run digital photo contests. The program manages the tasks of setting up a contest, managing the pictures for a contest, running and scoring the contest, assigning awards, viewing the pictures, and producing data reports.

The program license is assigned to a specific camera club. The program may be used by any member of the club for use within the club only.

The entire process of setting up and running a digital photo contest is fully automated in PhotoContest Pro. The pictures are entered, managed, viewed, scored and assigned awards in a single program. The results are saved and can be used to generate reports. The pictures can be viewed and scored seamlessly together.

Setting up, running and scoring a photo contest is easy with PhotoContest Pro. The program is customizable for the requirements and scoring system of the specific club.

- Optimized picture display
- Customizable contest display
- Customizable awards
- Customizable reports
- Automatic end-of-year contest
- Multi-club contests
- Support for multiple judging keypads

Pictures are submitted by the individual photographers through this website. The tedium of entering all the pictures, titles and other information manually by the contest coordinator is gone.

We now support optional judging keypads. Each judge would enter a score into an individual keypad and the PhotoContest Pro totals or averages the results for the picture score.

Any usb keypad should work and are available readily. We recommend:

[Targus PAUK10U USB Keypad with extra usb port](#)  
[Mr. Brightside Book Light](#)  
[Sabrent 4-Port USB Hub](#)  
[USB extension cable](#)

New in Version 3 and 4 is a feature where a club can put an image gallery and contest results page on their club website by just putting a small bit of code up on the site. The pictures are uploaded from scored contests in PhotoContest Pro with one button click per contest. Click for live examples:

[Image Gallery](#)  
[Contest Results](#)

Note that support for these features are heavily dependent on changing browser capabilities and hosting service features and may be curtailed or discontinued if necessary.

Also new in Version 4 is the capability to synchronize multiple contests in one operation. Many other improvements as well.

Please note you must be  
logged in to upload pictures

You must be logged in to upload pictures.

Click the "log in" button on the upper right corner of the page to log in.

Click on Log In  
See next page for logging  
in for the first time.

### Scheduled Outage

Our service provider has scheduled service outage for Nov 20, 2020 01:00AM~04:00AM PST. PhotoContest Pro will not work properly during this time.

PhotoContest Pro provides two methods for submitting pictures to contests. Note that these methods have changed recently.

Method 1 is the preferred method as it provides more features and a better experience. Method 1 is an installed program on your computer. It only runs on computers running the Windows operating system.

Method 2 is a direct upload and works on nearly all combinations of browsers and operating systems. Method 2 has fewer features than Method 1 and should only be used if you can't get Method 1 working.

**Proceed to  
Submit Pictures  
Method 1**

(recommended method)  
Current Version: 4.4.2.18995

**Proceed to  
Submit Pictures  
Method 2**

(fallback for when  
method 1 won't work)

All Mac Users need to use  
Method 2 Click there

## Important Note

Your browser may identify PCP as a non secure site. That is because it is privately administered on a non public server. Ignore the warning, it is bogus, its used by several hundred Camera Clubs world wide and is as safe as any other site.
