The CWL thanks you for participating in the Bable Bottle Campaign during Lent 2023. Receipts were written by the Choice For Life Society. Everyone was incredibly generous! The Creighton Model Fertility Care System (CrMs) is a method of family planning which follows the teachings of the Catholic Church and Nature's Law and can be used to achieve or avoid pregnancy. The CrMs can also be used as a solution to infertility, miscarriage, ovarian cysts, irregular cycles, hormone problems, premenstrual syndrome and usual bleeding. This system works by using standardized observations and the charting of biological markers that our body naturally produces every month to interpret a woman's health and fertility. This is easily done long distance via Zoom, email, and/or phone calls. Please contact Alice Ferreira @ 250-992-8419 or aliceferreira@shaw.ca for more information.
