Checklist

1. What is a fire hazard?

- \boxtimes Have you found anything that could start a fire? Make a note of it.
- \boxtimes Have you found anything that could burn? Make a note of it.

2. Who is at risk?

 \boxtimes Make a note of who could be at risk, particularly anyone likely to be vulnerable.

3. What is your plan to keep people safe?

- \boxtimes Have you kept fuel and heat apart?
- \boxtimes Have you assessed the risk to guests and other visitors and to staff (if you have any)?
- \boxtimes If someone wanted to start a fire deliberately, is there anything around they could use?
- \boxtimes Do you regularly maintain and service household appliances?
- \boxtimes Will you know if there is a fire?
- \boxtimes How will you make sure everyone gets out?
- \boxtimes Who will phone the Fire Service?
- \boxtimes Could a small fire be put out quickly to stop it spreading?
- \boxtimes Have you planned escape routes?
- \boxtimes Have you made sure people will be able to find their way out safely, even at night?
- \boxtimes Does all your safety equipment work and is it maintained?
- \boxtimes Will people know what to do and how to use any equipment?

Checklist

4. Record, plan and train

- Have you removed or reduced any risks you have found?
- \boxtimes Have you made a note of what you have done to remove or reduce these risks?
- \boxtimes Have you made a record of what you plan to do to deal with any risks which you cannot remove?
- \boxtimes Have you got a timeframe for carrying out any necessary improvements?
- \boxtimes Have you told your family and any staff, what to do in any emergency?
- \boxtimes Have you practiced a fire drill and recorded how it went?
- \boxtimes Do you know how to use any fire extinguishers that are available?
- \boxtimes Have you made information on the emergency plan and escape routes available to guests?
- \boxtimes Have you told your guests what to do if they discover a fire?

5. Maintain your plan

- Have you made any changes to the building inside or out?
- \boxtimes Has there been, or almost been, a fire?
- \boxtimes Have you changed the way you work?
- \boxtimes Have you planned your next fire drill?

Risk Assessment – Record of significant findings				
Risk assessment for		Assessment carried out by		
Building: St Eval Kart Circuit		Date: 16/02/2022		
Address: St Eval, Wadebridge, Cor	nwall, PL27	Completed by: David William James Andrewartha		
7UN		Signature:		
Floor/area: Kitchen, main entrance area, storage containers, side rooms, changing rooms, toilets		Use: Registration and kit checking of runners.		
		Tea & coffee service in kitchen and use of toilets.		
Step 1 – Fire Hazards				
Sources of ignition	Sources of f	uel	Sources of Oxygen	
Water urns in kitchen	Paper towels,	/ cleaning	Windows, air flow through doors	
All other electrical appliances	fluids/chemic	als	Windows, air flow through doors	
including lighting.	Seats and cu	rtains in chapel	Windows, air flow through doors	
Hot surfaces	Paper, cardb	oard, waste	Windows, air flow through doors	
Heating/radiators	Wood, plastic	c, waste/rubbish	, 5	
Plug sockets	Clutter, cloth	, material	Windows, air flow through doors	
Smoking	All the above (depending where the smoking is taking place)		Windows, air flow through doors	
-	the smoking

	All electrics switched on and off properly. Nothing left on after leaving.
	Fire exits labelled correctly with signs and a fire alarm present to make people aware if a fire should break out.
	An appointed fire marshal that can direct traffic from the building accordingly.
	Not overload plug sockets with too many extensions.
	Not leave any cooking or electrical appliances unattended at any time.
	Not have ignition sources covered and keep sources free from clutter.
	Store all chemicals in correct places and store in correct containers.
Action taken to remove and	
reduce the risk to people from a	Not having fire exits blocked.
fire	Adequate size fire exits in building.
	No overcrowding in certain areas of the building.
	Designated fire safety area outside.
	Designated fire safety marshal keeping traffic moving in the event of a fire.
	Adequately working fire alarms that can be heard throughout, and to alert those who are hard of hearing.
	Make sure everyone is aware of all the exit routes.
	Have competently trained and skilled people on kitchen duties.
	Look out for and remove potential for slips, trips and falls. Always observe.
	Get feedback from all those who are at risk to see if there are ways of improving for next time, based on any gaps in safety not seen or near-misses.
	Make sure everyone is aware that the number for the EMS is either 999 or the European number (works in the UK) 112. This will be phoned by either the fire safety marshal (David William James Andrewartha)
	Adequate fire extinguishers and people trained to use them or can show others how to use them.
	Fire blankets and fire buckets where necessary.
	Remove any lighters/matches that anyone can commit arson with.
	Maintain and check safety equipment regularly, ie fire extinguishers and blankets if they are our own and not from the venues we hire.
	Make no structural changes to the building or have any structures preventing anyone from exiting.
	Alert everyone as to where the exits are and instruct them to leave all their property in the event of fire.
	Do not let anyone back in once they have left the building.
	Make sure that runners don't leave their running kit/gear/vest packs on the ground for anyone to fall over on.
	Have a baggage area in a van parked outside the venue, not blocking entrances and exits, instead of having bags strewn across the floor.
