Stretcher assembly facilitates transferring patients from bed to gurney. Convenient for lifting and weighing patients.

All Volaro accessories are manufactured according to the most rigid standards of quality in design, materials and assembly. The result is a full line of lift and stand accessories that can be depended on for optimum performance in any healthcare or home setting.

Along with providing attentive, one-on-one customer service, we continue fulfilling our pledge to "make healthcare simple" through products that offer greater independence, that are easy to operate, and allow patients, residents and home users to improve their quality of life in a dignified manner.

To assure a safe and proper sling fit, all styles of Volaro slings are available in sizes XXS to XXXL. SMT Health Systems also offers slings in sizes made to your specifications. For more information about Volaro slings, please call our toll-free number: 1-800-725-7761.

Volaro VL4

Shown with divided-leg nylon sling. Sling can be placed and removed while patient is seated, decreasing chance of pressure sores.

Volaro VS4

Shown with butterfly sling. Built-in lumbar support distributes lifting pressure evenly around patient's torso.
