SECTION 6: ADD-ONS

WWW.BETTERBEATSDJ.COM

You want to put your own special signature on your event to signify your uniqueness as a couple.

But sometimes it's difficult to come up with original effects to do that! Below are some ideas you can incorporate into your own wedding.

It's time to add some entertainment options that will ensure that you have a super fun wedding reception! We are here to help you find those perfect finishing touches to make your wedding reception absolutely unforgettable.

Bubble Machine

Adding a bubble machine for the dancing adds a wonderful, elegant, and.....bubbly atmosphere! The only downfall is that some venues do not allow them, and the bubbles can leave a soapy film on the dance floor, in turn making it slippery and dangerous. However, many also choose to use a bubble machine outside, but the wind could cause issues with being able to keep the bubbles where they are wanted.

Cloud Machine

Wow your guests by performing your first dance on a cloud! Most venues do not allow smoke machines due to them setting off the smoke alarms. The cloud machine works with dry ice, remains close to the floor, and does not have an odor that will turn your guests off. There is nothing more beautiful than dancing your first dance on a fluffy cloud!

Glowing Totems / Scaffolding

Add elegance and ambience to the room by adding glowing totems with rotating heads on the tops. The color of the totems can be changed to almost any color you desire, and would match the color of the glowing façade in front of the DJ.

For extra lighting effects, add chrome scaffolding that goes over the DJ and has numerous lights, lasers, and strobes to burst your dance floor into another dimension!

<h2>YOUR RECEPTION</h2>		
-------------------------	--	--

		
<p style="text-align: center;">Personalized Gobo</p> <p>Allow the attention to remain on you during your special day by having your names projected on the floor or wall with a gobo. These provide a clean look and the metal slides are laser cut to provide a seamless look. It is all about you!</p>	<p style="text-align: center;">Flat Screen TV's</p> <p>Add flat screen TV's to the glowing totems to have either your names on them during the reception, or we can make a wonderful slide show that can be played during the dinner, and then looped throughout the night as the dancing and activities are occurring!</p>	<p style="text-align: center;">Projector</p> <p>Some choose to have a projector with a large projection screen to loop video, slide shows, or logos. The only downfall with this option is that it can be difficult to see the images on the screen if the room is too light.</p>
		
<p style="text-align: center;">Uplighting</p> <p>To add to the ambience and elegant atmosphere, add uplighting around the edges of the reception room. Most colors can be chosen to match your theme. They can be left on for continuous ambience, put on strobe mode (which may be problematic to some guests), or can be on sound activated mode.</p>	<p style="text-align: center;">Photo Booth</p> <p>Adding a photo booth brings a whole different dimension of fun and entertainment to your wedding reception! We have a large glowing enclosure that can be changed to most colors requested to match the theme of the room. We have numerous backdrops to choose from, a large iPhone shaped machine, unlimited prints from our on-site printer, numerous fun and humorous props, and a red carpet with red velvet ropes to add to the elegance! We will also send you every picture taken in the booth in digital format after the event.</p>	<p style="text-align: center;">Cold Spark Machines</p> <p>Add to the excitement of your grand entrance by having cold spark machines on each side of your entrance that will have all eyes on you! These machines do not create hot sparks, and are not a fire hazard, so most venues do allow them. Using the cold spark machines and then the cloud machine adds an amazingly awesome result to your entrance and first dance!</p> <p style="text-align: center; color: red; font-size: 1.2em;">Coming Soon!</p>
		
<p style="text-align: center;">Glow Wands</p> <p>Provide your guests with large foam glow wands to add more fun on the dance floor, providing an exciting look to the dancing of your guests!</p>	<p style="text-align: center;">Confetti Gun</p> <p>Add an explosion of excitement to your entrance, or to the dance floor, with a confetti gun! Some venues may not allow them.</p> <p style="text-align: center; color: red; font-size: 1.2em;">Coming Soon!</p>	<p style="text-align: center;">Smoke Machine</p> <p>Make your lighting and lasers pop on the dance floor with a smoke machine. The downfall is that many venues do not allow them because they can set off the fire alarms.</p>
