

# LIVING HISTORY WORKSHOPS

2<sup>nd</sup> November 2019

## **Information for Schools: Enhanced DBS certificates, Risk Assessments, Public Liability Insurance & Safe Guarding.**

This letter confirms that all Living History Workshop practitioners hold a valid Enhanced DBS certificate. We aim to carry these with us during all workshops, along with photographic ID.

This letter confirms that all Living History Workshops are risk assessed, and a copy of this is provided as part of the booking process. A generic risk assessment is also available to download from our website: [www.livinghistoryworkshops.co.uk](http://www.livinghistoryworkshops.co.uk).

This letter confirms that we hold current Public Liability Insurance, and a copy of this is provided as part of the booking process. It is also available to download from our website: [www.livinghistoryworkshops.co.uk](http://www.livinghistoryworkshops.co.uk).

This letter confirms that Living History Workshop practitioners are aware of the principles of Safe Guarding with regard to children, young adults and vulnerable individuals. In the event of any concerns, our practitioners will report to members of the client's Safe Guarding team. Participants of our workshops are the responsibility of teaching staff/parents/carers/guardians at all times. It is not appropriate or expected that any Living History Workshop practitioner is left alone, in charge of, or responsible for any workshop participants.

Signed

Corrine Crawford

(Company Director)
