If you are divorced or separated, please read special instructions first.

Log in

Once you have created your application as a new user, click here. You will land on a screen where you can log back into the application using your username and password. If you have been designated Family 2, you also begin here. Use the username and password given to you in the e-mail to log in on the log in screen.

Welcome to FAST™ – Financial Aid for School Tuition

Your school has chosen **FAST – Financial Aid for School Tuition** powered by ISM® – to process your financial aid application. FAST is an online program that works in your computer's Web browser. In order to use FAST, you will need Internet access. If you do not have a computer, public libraries usually have online computers available, or you may contact the school and request to use a computer there.

The Application

You reach the application by going to your school's Web site (typically on the Admission or Financial Aid page) and clicking on the FAST link. The link will look similar to these icons.

Each question in the application has a **Help Bubble** to explain what is required for that answer. A paper worksheet for the application with a list of all the Help Bubbles is available by clicking **Downloadable Worksheet** located on the gray navigation bar on the opening page.

Time to Complete

When you sign on as a new user, you will be asked to create a **username** and **password** so that you can log in and out of the program as needed. You do not have to complete the application in one sitting. It should take you approximately 45 minutes to complete the application once you have gathered your information.

Preparing to fill out this document takes about as long as preparing to file your taxes. In order to complete this form, there are a number of financial records you will need.

The following list includes all the financial records that may be needed. Select the ones that pertain to you. **Note: You can apply for aid even if you have not completed your tax forms.**

FAST Help: e-mail: help@ismfast.com or 1-877-326-FAST Call Center hours are 24/7/365

IRS forms

- ▼ Medical records and expenses
- ▼ Retirement account information

Navigating This Program

A color-coded system of icons will help you move through the various sections. A green arrow ► means that the section is open and ready for you to input information. A blue check ✓ means that you have completed that section, but it is still available if you need to go back and change any information. A gray arrow ► means that the section is not available at this time.

You may enter information out of sequence. For example, you may enter information about your income before you enter information about real estate holdings, even though income comes after real estate on the Navigation bar.

More information about each question is available three different ways: 1) when you click on the red number beside the question, 2) when you position your cursor in the answer field, and 3) by opening the paper worksheet PDF available on the Navigation bar.

Printing

Please retain a copy of the completed application for your records. After you have finished the application, you will have

an opportunity to open and download or print a PDF of the information you filled out.

Payment

To complete your application, make a payment by Visa or MasterCard. Your school will tell you how much the filing fee is. If payment is a problem for you, please contact your school to ask for assistance. If you do not have a Visa or MasterCard, you may pay the school directly and the school will issue a voucher number to use in place of a credit card number.

Deadlines

Deadlines are established by the school. Please pay attention to the deadline given, and remember: With financial aid, earlier is always better.

Documentation

Your school will tell you which documents to send and where, but be prepared to send, at a minimum, copies of your W2s and your federal, state, and local tax documents.

Cautions

- ▼ **Do not use the “back” button on your browser.** If you need to return to a previous section, use the gray Navigation bar on the left.
- ▼ **If you forget your username or password,** click the “forgot username or password” link on the opening page and follow directions. Your password will be sent to the e-mail address you gave us.
- ▼ **If your browser closes, you will have to log back into the system.** Any work that you have submitted – i.e., any section that has a blue check by it – will be saved. If you were in the middle of a section, you may have to restart that section and re-enter some information.
- ▼ **Answer all questions. Do not leave any numeric fields blank.** If a particular question does not apply to you, please enter a zero in that field. You may move from field to field using your mouse or the tab key.

Special procedures for divorced or separated parents

If you are divorced or separated, each parent needs to file a separate but linked application. In order to do this, we ask that one parent begin the process by clicking on the **Start Application** button on the opening page. From now on, you will be referred to as **Family 1**. This designation has no significance with respect to financial responsibility. It only indicates who initiated the application.

After answering a few questions about family structure and custody, you will be asked to provide an e-mail address for the other parent, who then becomes known as **Family 2**. If there is no other parent living, or if there is a reason why the other parent can't be contacted, please explain in the box provided.

If you have been designated Family 2, you will receive a confidential username and password by e-mail. **Family 1** does not have access to your username and password. Start

at the school's Web site and click on the **FAST** link. Once you get to the FAST page (as shown on the inside front cover), **do not click on the New users link**. Instead, click the "Resume Application" button and enter the username and password on the following screen. This ensures that the applications from both parents will be appropriately linked.

There is only one fee for both applications. It is up to you to decide who will pay. The **Application Status** page displays which sections have been completed by each family. Payment will not be possible until both **Family 1** and **Family 2** have completed their applications.

If **Family 2** does not respond to the initial e-mail, it is possible for **Family 1** to re-send the e-mail by clicking on the **Account Settings** link on the gray Navigation bar and following the instructions.

School-specific Questions

The school to which you are applying may have included some specific questions here. **Note:** If you have questions about these school-specific questions, you will need to contact your school. The FAST Call Center will not be able to clarify these questions for you.

Not all schools choose this option, so if the school you have chosen does not appear here they simply haven't asked any extra questions.

601 Annual Income	\$ 50000
602 Business Income	\$ 0
603 Dividend/Interest Income	\$ 500
604 Capital Gains Income	\$ 300
605 Real Estate Income	\$ 3000

608 Child Support Received	\$ 550
609 Gifts	\$ 0

This is a Help Bubble
A summary of the information that is needed to fill in the active field. In this case "Business Income" is active.

Figure A

Letter/Agreement

In this section, you may write a letter if you feel there are special circumstances that should be considered. At the end of this section, you will also be asked how much you are able to pay toward your child's education.

Your application is delivered to the school once the filing fee has been paid.

Frequently Asked Questions

What happens after I have completed the application?

Your information is immediately calculated and the recommended award is available to the school. However, awards may not be made until all applications are in, and they are often contingent upon the funds available and the number of families requesting aid. Your school will notify you directly about its financial aid decision.

What if I don't understand how I should answer a question?

When you click on a field, there is a **Help Bubble** (as seen in Figure A) to explain what information is needed for that field. A summary of that information is listed in the downloadable worksheet on the Navigation bar. If you still have questions, contact our Call Center at 1-877-326-FAST. If you are still not sure if you are including the appropriate information, write a short note to the school in the spaces provided at the end of each section.

Who can see my information?

Authorized personnel at the school to which you are applying and FAST employees who need to handle your application are the only ones with access to your records.

Why didn't I receive more financial aid?

Awards are based not only on need, but on the funds your school has available. This means that even though you may qualify for more aid, a school's financial condition may limit what it can offer.

What if I make a mistake?

If you make a mistake before you have checked the **Accept** box at the end and before you have paid the filing fee, just go back and make the changes. Nothing is final until you have paid. If you discover an error after you have paid, you can log in to your account, where you can request a change. This request will go directly to the school, where Financial Aid personnel have the ability to go into the program and revise your entry. Our Call Center does not have access to your file and cannot make a change for you.

How long will this take to complete? Do I have to complete this application at one time?

Gathering the necessary information to complete this form is similar to gathering information to complete your taxes. Once you have collected all your financial information, it should take approximately 45 minutes to complete this application. You do not have to complete everything at one time. You may log out and come back later, using your username and password.

I filled in most of the page before I quit, but when I went back into the program the information was gone. What happened?

FAST only saves information from completed sections. If, for example, you are working on Income, you need to complete the entire section in order for that information to be saved.

What are the accepted payment methods?

We accept Visa and MasterCard. If you do not have either of these cards, you may contact your school to obtain a payment voucher to use in place of a credit card. If the filing fee presents a hardship to you, please contact your school.

My screen says “Cookies must be enabled.” What does that mean?

Cookies refer to information that is stored on your computer by sites on the World Wide Web. In order to operate, FAST requires that your computer be configured to accept cookies. In most instances, this will already be done. However, if you get an error message, click on your browser’s Help menu and look up information about how to enable cookies.

Will I be spammed?

Absolutely not. Your e-mail address will never be shared with anyone but the school to which you are applying.

What papers will I need to send?

You should be prepared to send your tax returns and your W2s. After you submit your payment, you will also receive an e-mail with a list of documents you will need to send.

I don't have a computer or an e-mail address. Now what?

Most libraries have computers with Internet access available for use. If this is not practical, please ask the school if you may use a computer there. Before you start the application, you will need an e-mail address. Both Yahoo and Hotmail offer free e-mail service. You can get to Yahoo at www.yahoo.com and hotmail at www.hotmail.com. Follow the directions for setting up a new e-mail account.

I forgot my password. What should I do?

On the login page, click on "forgot username or password?" You will be asked to enter your e-mail address. You will receive an e-mail with your username and password.

I need to explain something about our assets. How do I do that?

Line 512 gives you room to write about your assets. There are also spaces in Liabilities (Line 558), Income (line 610), and Expenses (line 718) for you to clarify any of your answers. Plus, there is room in the Letter/Agreement section.

I have a Section 125 Plan and have pre-tax money withheld. Do I have to include that when I list my W2 income?

Yes, you do. On lines **601** and **601b** we ask you to list your gross wages before any deductions are taken.

When is the application due?

The due date is up to the school, so please be sure to ask if no deadline is provided. Earlier is always better.
