

## Australia's Alien Lady, Mary Rodwell

She's affectionately known as Australia's "Alien Lady" - one of the world's most sought after and respected experts on all things to do with the UFO phenomena. But there's much more to Mary Rodwell than meets the eye. A former midwife and nurse, grief counsellor, clinical hypnotherapist, author, narrator, documentary director and loving grandmother, in 1997 she founded ACERN - the Australian Close Encounter Resource Network, the largest organisation of its type specialising in helping alien abduction victims deal with their traumas with the backing of qualified GP's, psychologists and therapists.

To date, ACERN has supported some 1,900 cases of ET encounters worldwide from countries including the US, Japan, Russia. All are ordinary people - mums and dads, children, nurses, doctors, police, psychologists, lawyers, teachers and farmers - but with an extraordinary story to tell. Says Mary: *"For those with encounter experiences, my work offers them validation and an understanding in their own personal journey as well as the opportunity to share their experiences with others"*.

A compelling raconteur with controversial subject matter, Mary Rodwell has previously been invited to speak at Oxford University in England as well as at UFO symposiums in Hong Kong, USA, UK, Canada, Ireland and New Zealand. In 2006, she joined the Former Canadian Defence Minister, Paul Hellyer at the World Peace Conference in Hawaii to call for greater understanding of the UFO phenomena and compile an historic mission statement on Exopolitics, the political implications of an extraterrestrial presence.

**Now the former Brit from Staffordshire, England who today resides in Agnes Water in central Queensland is in demand again. This time for a landmark US-UK speaking tour in which she will address the prestigious International Institute of Integral Human Sciences (IIHS), a non-governmental organisation affiliated with the United Nations. Both events are testament to the world's mounting interest and increasing maturity in the UFO-ET phenomena.**

Explains Mary of her unprecedented access to UFO-ET experiencers: *"It is a huge responsibility for me to speak on behalf of so many thousands who are experiencing encounters. I am just a normal everyday woman who just happened to be exposed to the most amazing and incredible of human experiences. To be part of an historic expose with courageous individuals who are prepared to put themselves and their lives on the line and face potential ridicule is very humbling and a great honour"*.

## Australia's Alien Lady, Mary Rodwell

### Mary's fascinating topics of discussion include:

- Her previous career in England as a nurse and midwife and how extraordinary stories from patients forced her to seriously examine the UFO and alien abduction phenomenon
- Alien abduction based on ACERN's 1,900 case studies worldwide - What happens when someone is abducted? Where do they go? What do they see? What do aliens look like? What lasting effects are there on those who are "taken"? How can you overcome the trauma?
- Hard evidence on the existence of UFOs including implants recovered from alien abductees
- Historical evidence of UFO's in paintings and indigenous drawings
- How world governments have the ability to produce free energy thanks to reverse engineering from alien technology - and why they won't use it
- Her theories on genetics and how aliens have manipulated and altered human DNA
- The Star Children or Indigo Children - examples of kids the world over with exceptional abilities which Mary says are the direct result of alien genetic interference

Says Mary to the sceptics: *"Over 78 % of people in a recent US Poll believed we are not alone in the Universe. On a daily basis we are shown video footage and photographs of craft by the cart load from credible people from all over the world. Military whistleblowers confirm they have seen craft and also shot down UFO's. Astronauts including Edgar Mitchell admitted to seeing craft and even Presidents Jimmy Carter and Ronald Reagan had their own personal encounters. Just recently Miyuki Hatoyama, the wife of Japan's premier-in-waiting Yukio Hatoyama claimed to have ridden in a "triangular-shaped UFO".*
