

NORWAYNE HPAC GROUP

Hello,

The Norwayne Health Professions Affinity Community Group is an extracurricular club for Norwayne students who are motivated to improve the health in our community. We are a student-led organization mentored by teachers and community members with the mission of creating a healthier community. Our focus has been on combating childhood obesity and inactivity with past projects, including the technology app for the County Line Trail, an after school health and fitness club for elementary students, community presentations on healthy snacks, and the annual spring 5k race and community health fair. This year we are also excited to facilitate bicycle safety in our community.

The efforts of our group each year culminate in hosting the Norwayne HPAC 5K and 10K Race and Fun Run. This race begins at the trailhead in Creston (beside the Police Department). Participants run down the County Line Trail to Sterling and celebrate at the finish line at the Sterling Park. Participants love running through corn fields and pastures with grazing cows in our unique agricultural setting. Norwayne School buses return runners back to the Creston trailhead for refreshments, awards and a fun community health fair. This year we will be hosting an all new "Bubble Fun Run". Area youth (and fun loving adults) will be excited to participate in this brand new fun event! Our event also helps provide awareness about the County Line Trail - a wonderful health and fitness gem in the heart of our community. Our group has enjoyed raising public awareness of this valuable community asset.

In true Wayne County fashion, we are looking to involve our community in this awesome project! We know that our group cannot accomplish this on our own. We are turning to the generosity of our community to help us bring improved health and wellness to our community through these fun events. Your generous support will help us accomplish our goals with the help of our many volunteers and local partners. Enclosed please find an outline of the opportunities available for you to partner with us. We are confident our efforts will further enhance the health and wellness of our community. Thank you in advance for partnering with us in this project!

Sincerely,

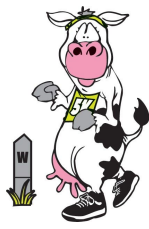

Halle A. Miller, President

Emma-Jean Stanley, Vice President
