### **TruSculpt Flex**

TruSculpt Flex is a muscle sculpting device that offers personalized treatments based on patient fitness level, shape, and goals. Only TruSculpt Flex with Multi-Directional Stimulation (MDS) deploys a unique method of electrical muscle stimulation to target specific muscle groups using three treatment mode options, covering the largest treatment area in the body sculpting industry. Treatment to be twice a week for 3 weeks and then once monthly to maintain.

**Contraindications** include implanted electronic devices such as pacemakers, metallic implants under treatment area, Seizure disorder, recent surgery where muscle contraction will prevent wound healing, and umbilical or inguinal hernia.

Precautions – blood thinners
