PcpSubmitPictures is a program that, once installed on your computer, makes it easy to submit pictures to PhotoContest Pro contests.

Once the program is installed, you no longer need to go to this website to submit pictures or to keep the program up to date. The program checks for updates every time it runs and will prompt you if a new version is available and allow you to upgrade in place.

Installing this program will put a shortcut on your desktop.

Click [HERE](#) to install PcpSubmitPictures.

Once in you can Submit pictures, if you have selected method ONE, by dragging and drop your images on to the New Picture box in the screen below: (Otherwise select method two and follow its prompts to upload.)

Don't forget to do the following:

Make sure you are in the right contest.
Date and Category are important.

Add a picture Title.

Make sure longest side

is under **3840** pixels.

Click on Save picture and info.

CHECK THAT YOUR IMAGE IS LISTED IN THE COLUMN UNDER THE JUDGE'S NAME.
