

PRESS RELEASE

PEC-HEURE 2023 Tournaments

Pro-Bass Canada announces a renewed agreement with its major sponsors; PRINCECRAFT boats and MERCURY marine for the year 2023.

Pro-Bass Canada has been promoting catch and release tournaments for the elite anglers for over twenty years now and both Mercury and Princecraft have been there all the way.

Judging by the growing number of bass boats, bass anglers and bass associations promoting competitive bass fishing tournaments in Quebec we at Pro-Bass Canada can only assume we have done our job right.

We have had some wonderful years in the past promoting bass fishing events for the elite but to make things viable we must consider some important changes.

For the future our goal will be promoting events for the fishing enthusiasts and their friends and families in a friendlier format.

With three events per year and very affordable entry fees we believe we will be reaching out to a much wider audience making it easy for anglers to participate with their families, while targeting 4 species of fish.

BASS, PERCH, PIKE & WALLEYE

Pro-Bass Canada would like to thank MERCURY Marine and PRINCECRAFT Boats for their continued support and making our dreams a reality.

More details will follow soon,
