

PICK UP REACHER

- Ideal for retrieving or reaching a wide variety of items in the home, garden or out shopping.
- Able to hold 454g or less.
- The jaws have sculptured liners which give an excellent grip. The jaws open to 3" wide and rotate 360° for greater maneuverability. The Pick-Up is operated by a wire not a cord eliminating fraying or stretching.
- There is a magnet attached to the jaw which allows easy retrieval of pins, paper clips and other small ferrous items.
- The trigger is designed for comfort and is large and roomy to allow use of all fingers. The short trigger distance is ideal for stiff, arthritic fingers. The trigger projects through the top of the handle to allow it to be squeezed in the conventional manner, or pushed using the palm of the hand.
- The head can easily rotate to suit individual tasks. The Pick-Up is supplied with a removable stick clip, allowing it to be clipped onto wheelchairs and walking frames etc.

Warranty
1 Year
