## **PARTIAL DENTURES**

1<sup>ST</sup> appointment: Design of partial – Preliminary impression for survey and analyzing of rest seat placement

Preparation of teeth for partial denture – i.e. rest preps, guide planes, contouring, crowning, etc.

2<sup>nd</sup> appointment: Master impression:  
Considerations: (a) Capturing of full extensions of edentulous support areas – i.e. retro molar pads, tuberosity.  
(b) Overloading tissues – especially bilateral free-end saddles  
(c) Maxillary palatal vault accuracy  
Customizing stock tray will help lessen distortion.

3<sup>rd</sup> appointment: Framework Try in with bite or set up with teeth  
Considerations: (a) Rest interference  
(b) Adjustment of opposing if indicated  
(c) Shade if need or approved

4<sup>th</sup> appointment: Delivery of completed partial denture – Happy Patient!

If extractions are done after master impression is taken, an immediate partial should be prescribed. This may result in a partial relines after delivery of new partial denture. This results in not being able to try in the partial denture.
