

2018, 2019 & 2020: More Focus on the Role of Oil & Gas in the Sustainable Development and Human Prosperity

Sami Alnuaim, 2019 President

Health, Safety, Environment, & Sustainability TD & Team VP Communication, Executive Team & Staff

5 GENDER EQUALITY

⊜

17 PARTNERSHIPS FOR THE GOALS

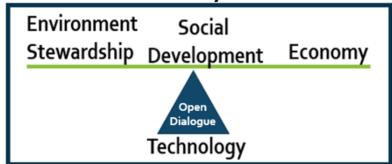

1- Presented the O&G Industry's Reality

Unseen Reality: Great impact on global economy, human lifestyle and prosperity with environmental and social development responsibility.

1 NO POVERTY 2 ZERO 3 GOOD HEALTH 4 QUALITY AND WELL BELING 4 COLCATION 7 AFFORDABLE AND CLEAN ENERGY 8 ECONOMIC GROWTH AND WIRASTRUCTURE 10 INEQUALITIES 11 ACTION 15 UNE BELIOW WATER 15 ON LAND STITUTIONS

2- Proposed the Energy Balanced Model

Sustainability Model *

The Energy Balance

3- Redefined the Energy Transition

"Cleaner and more efficient O&G complemented by renewables towards near zero net CO2 and Methane emissions with positive economical, social, energy poverty and environmental impacts"*

- 4- Launched Sustainability Regional and International Awards.
- 5- Started energy debates and summits series (Bahrain 2019, DC 202).
- 6- Launched a global campaign to collaborate and engage with SPE.

6.1 External Stakeholders' Engagement

Engage with Global Premier Think Tanks, Decision Makers and Energy Centers

6.2 Internal Stakeholders' Engagement

Engage with Global IOCs, NOCs, International SCs & Governments

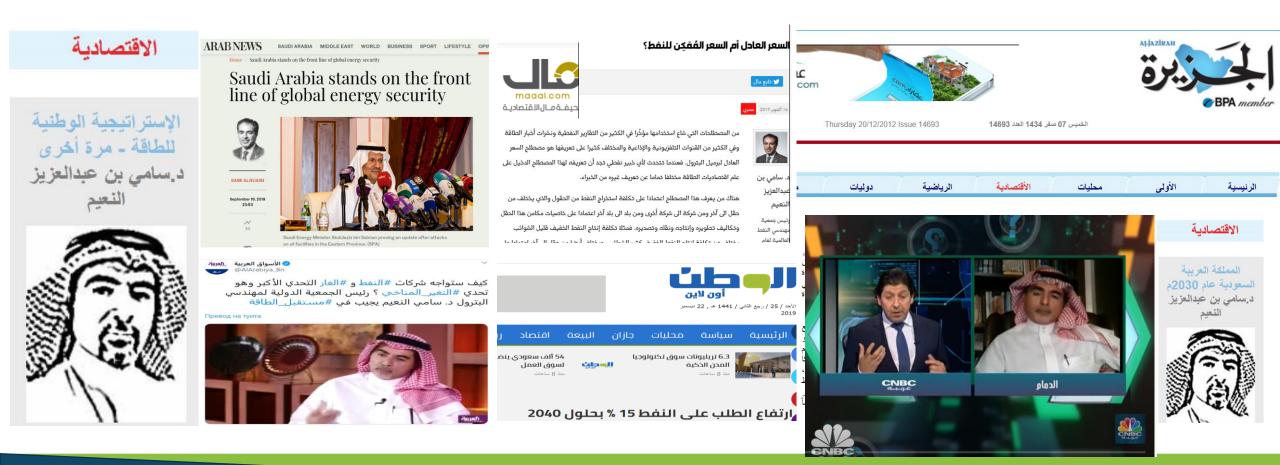

6.3 Media Engagement

Engage with Several Local, Regional, International News Channels & Social Media

6.4 GOs & NGOs Collaboration

Collaborate with Several Internal & External Stakeholders (MOUs)

6.5 Academia Collaboration Engage & Collaborate with Several Universities

- SPE Sustainability Promotion in Academia:
 - U of Houston Carbon Management Initiative
 - U of Houston Social Responsibility Initiative
 - U of Texas Water Management Initiative
 - U of Texas Sustainability Human Behavior Initiative
 - U of Texas Sustainability Quantification Initiative
 - KFUPM Energy Sustainability Center Proposal
 - Introducing the Concept of Citizen Engineer
 - Sustainability to ABET Accreditation Requirements

Citizen Engineer

7- Launched the Gaia Summit

Objective:

Provide the oil & gas industry with the means to engage with all stakeholders and co-create new actions that rise to the scale of urgency of the sustainability challenges by sharing, reinforcing existing efforts and introducing new radical ideas.

Paris June 2019 Event

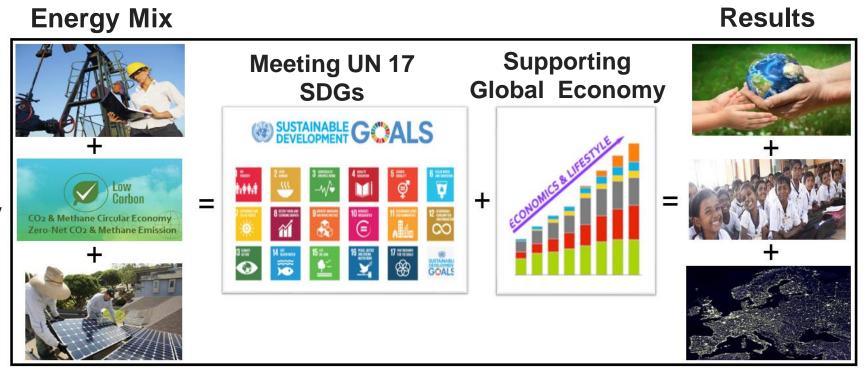

8- Introduced the Energy Sustainability & Energy Transition Balanced Model*

Clean Oil & Gas

Carbon & Plastic Circular Economy

Renewables

Protect the Planet

Enrich Social Development

Reduce Global Energy Poverty

Near Zero Net CO2 & Methane Emissions by 2050!
