

About Us!

Connect Care is a hospital owned and operated program that has been providing Emergency Response Service for over 30 years. All net proceeds support hospital programs.

We pride ourselves with exceptional personalized customer service, integrity and transparency. Connect Care allows individuals to live safely and independently at home or on the go.

Our largest referral source is our clients and their families. Trusted and recommended by doctors, and healthcare providers.

This valuable service is offered across Canada through the Oakville Trafalgar Memorial Hospital.

Proudly Canadian

Choose the Right Connect Care Medical Alert Button

PERSONAL HELP BUTTON

The personal help button is a great way to stay safe & independent in your home

- The button can be worn either around the neck or on the wrist. Once the button is pressed, a call is initiated directly to our 24 hour monitoring centre.
- Our trained operators will speak with you through the two-way speaker, even with no voice contact, help will be dispatched as quickly as possible.
- The button is water resistant, providing safety and security anywhere in the home including the shower or bath.

AUTOMATIC FALL DETECTOR

Peace of mind for those who have experienced a fall or are at risk of falling

- Using advanced sensors, the pendant can automatically detect when a fall has occurred with the option to manually press the button to initiate immediate contact with our 24 hour monitoring centre.
- Once a fall or press of the button has been activated, our trained operators will speak with you through the two-way speaker. Even with no voice contact, help will be dispatched as quickly as possible.
- The automatic fall detector button is water resistant, providing safety and security anywhere in the home, including the shower or bath.

GPS SAFE

For those who are always on the go, get our newest GPS Safe device

- If you remain active outside the home and want to ensure your safety & security, whether it be on a hike, grocery shopping, or walking the dog—this is the best option for you.
- With the choice to either wear the device as a pendant, or clipped onto your waist band, the GPS Safe water resistant device can be taken anywhere - keeping you connected at home and on the go.
- If a fall or emergency occurs, there is a two-way speaker built directly into the device, allowing you to speak with the operator and provide details of your emergency.
- Offering ultimate peace of mind, the GPS Safe includes location-based services to pinpoint the user's location - to get them the help they need as quickly as possible.
