These teams were selected for each Division using a computer generated random selection process.

The regular season will begin on January 3rd and end on March 1st.

All teams will play a 20 game schedule during the season in which each team will play two games against teams in their own division and one game against each team in the other divisions. Each four team division will play one extra game against another team from one of the other four team divisions chosen at random.

Each team will play games on Monday, Tuesday or Wednesday with 10 home games and 10 away games. During the first week of the season, games will be played on Tuesday, Wednesday, and Thursday. In all cases each team will play two or three games per week. Each team will have 6 idle days during the season.

March 6th has been set aside for a possible rain out day OR a possible playoff day in case there is a tie(s) for 1st place to determine the league champion.

The double elimination seeded playoff schedule will begin on March 6th or March 7th. The seed for each team will be determined by the team's final record during the regular season. The winner of each division, as in past years, will be seeded as #1, #2, #3 and #4. Seeding for all ties of seasonal records will be determined in the order listed below.

- 1. Head-to-head record**
- 2. Best differential between runs scored and runs allowed**
- 3. Coin flip**

Once the playoffs begin, a bracket sheet will be posted both online and at each field. The bracket will be updated each day at both venues and online.
