Solid Tints and Dyes

Fashionable and reduce the amount of light coming through the lenses

High Luster Edge Polish

Edges can be polished to a high luster, resulting in clearer and shinier edges; plus, it makes lenses look thinner

Plastic Gradient Dyes

Usually dark at the top and gradually lighten toward the bottom of the lenses

UV Protection

Can block 98-100% of transmitted and reflected UVA and UVB rays

Scratch-resistant Coating

Applied to plastic lenses to increase their resistance to normal scratching and pitting

Polycarbonate Lenses

One of the thinnest, lightest, and most impact-resistant materials available; plus, they provide UV protection and scratch resistance

Anti-reflective Coating

Can reduce eyestrain caused by glare, reflections, blue light exposure from digital devices, and the “halos” you see around lights at night; plus, it helps protect lenses from scratches, smudges, dust, and water

Photochromic Lenses

Automatically darken when exposed to sunlight and lighten when out of sunlight

Progressive Lenses

Line-free lenses that gradually change power with distance

VSP Laser VisionCareSM Program

The VSP Laser VisionCare Program is complimentary with most VSP plans, so your members can save hundreds of dollars at no additional cost to you.

The program provides members a safe and successful path to improved vision through laser vision correction.

Benefits through a VSP Laser VisionCare Doctor

Complimentary Screening

- Determines if the member is a good candidate for laser vision correction
- Initial discussion about the benefits and risks

Pre-operative Exam

- Measures the member's degree of vision correction needed and includes medical history review

Post-operative Exam

- Follow-up exams to ensure the eyes heal properly during recovery

Benefits through a VSP-Contracted Laser Vision Center

Complimentary Consultation

- Used to confirm candidacy and design an individualized treatment plan
- Surgeon determines which procedure will provide the best possible outcome
- In-depth review of benefits, risks, and potential side effects of recommended treatment

Laser Vision Correction

- Procedure performed by a participating surgeon at a VSP-contracted laser vision center
- Discounts averaging 10-20% off or 5% off a promotional offer on PRK, LASIK, Custom LASIK, Custom PRK, and Bladeless LASIK
- The member pays either the discounted rate or the not-to-exceed amount, whichever is less. The member will never pay more than the following not-to-exceed amounts:
 - \$1500 per eye for PRK
 - \$1800 per eye for LASIK
 - \$2300 per eye for Custom LASIK, Custom PRK, or Bladeless LASIK

Not-to-exceed amounts honored at most, but not all, locations.

Enhancement Policy

- Although rare, the procedure does not always correct vision to the doctor's and member's satisfaction. If the member and the doctor agree that it's necessary, an enhancement procedure and follow-up care may be performed at no additional cost to the member.
- Each VSP-contracted laser vision center's enhancement policy can vary. No-cost enhancements are typically performed within the first year, but some centers offer commitments as long as the member's lifetime.

Save up to \$2,500

With Exclusive Member Extras, members can save more than \$2,500 with special offers and rebates through VSP and other leading industry brands.
