Bags &  
large tote bags

# Manage empty seed, pesticide & inoculant bags...

**Environmentally safe way to  
manage empty seed, pesticide &  
inoculant bags now available!**

**Get a free Cleanfarms ag collection bag from  
this participating ag-retailer.**

Fill collection bag with 50 to 60 small (<100kg)  
empty seed, pesticide and inoculant bags. When  
full, securely tie top and return bag to ag-retailer.

Bags accepted May 1 to October 31.

Seed, pesticide & inoculant bags safely managed  
at a waste-to-energy facility.

# Easy steps to manage seed, pesticide & inoculant bags

## 1. Empty

Empty bags completely.

To avoid dust, do not shake the bags.

## 2. Bag or fold

SMALL BAGS 1–100 kg	LARGE TOTE BAGS 500–1,000 kg
Place small bags in ag collection bag	Fold large bags in bundles of 5 or 6
When full, close and secure with tie wrap, rope or knot	Secure with twine

## 3. Return to ag-retailer

Return full bag or bundle to participating ag-retail site for proper disposal.

WHAT'S IN	WHAT'S OUT
<b>All seed, pesticide &amp; inoculant bags:</b> small (up to 100 kg) or large (greater than 100 kg, usually 500 kg or 1,000 kg)	Feed bags
	Fertilizer bags

### IMPORTANT

**Only one type of material per bag or bundle. Do not place jugs and bags in the same collection bag.**
