

Fireside Fellowship:

The Character of the Ungodly:

1. Why do some people claim to be godly when they are not? What is to be gained from making this claim?
2. How do we tell the difference between those who really are godly and those who claim to be godly?
3. Why are those who claim to be godly but are really living out ungodly lives, so dangerous to those around them – even to the point of shipwrecking the faith of others?
4. Why are the ungodly who claim to be godly so dangerous to the health and growth of the church?
5. The ungodly, while claiming to be godly, scoff at the truth of the Word of God. They are unteachable and unyielding to the truth. Does this surprise you? Why or why not?
