

I am Huda Al Barghouthi, the ES Technology Integration Specialist at BBS. I began my career as Computer Programmer and Trainer in the Research Department in Kuwait University and worked there for 4 years. On 1992, I joined BBS as ES Math teacher and team leader. During my teaching years I applied different teaching strategies and have continued to learn and stay knowledgeable about new teaching trends. Also, I have given several workshops on Math topics at NESAC Conferences, PEAK Conferences and in school as Professional Development Training. I am passionate about technology and I believe that technology can place the world in the hands of every student. So, when the school offered the IT Coach position six years ago, I immediately applied and got the position, which was for me, a dream that came true. As Technology Integration Specialist, I offer training to staff in different ways to integrate technology into teaching and learning and I look forward to more opportunities to collaborate with teachers.

B.S. in Computer Science Studies - Kuwait University  
Elementary Teaching Certificate - College of New Jersey  
M.S. in Multidisciplinary Education - Buffalo University.
