

Specializing in Accessories for Hydration Packs

JAMAK Fabrication—serving the leisure and consumer markets for many years. Our custom designed products can provide solutions for projects requiring optimum performance in an environmentally conscious world.

- NSF & FDA compliant materials
- Injection, transfer & compression molding
- Silicone tubing (Custom sizes)
- Various material options
- Compound development
- ROHS compliant
- O Rings
- Over-Molded applications

JAMAK is a leader in providing precision made rubber sealing solutions. Throughout our global operations, our focus is on creating value for our customers by providing outstanding technical service and economic manufacturing options. From designing products and materials engineering, to customer support, we demonstrate our commitment to excellence in the quality and performance of the products we sell.

Design and Material Development

Our technical support staff provides the resources for designing, formulating, and developing products and test methods. Our engineering design software allows us to offer design and tooling alternatives quickly and cost effectively.

Company Information
