

# PROCAIR PRIME MATTRESS REPLACEMENT SYSTEM

- No more concerns over correct pressure level settings with the AutoCair. This cyclic automatic weight sensing technology delivers fail-safe patient comfort levels.
- This all-in-one system has a combined mattress and pump with easy setup and does not require a bed end to hang a separate pump. The pump is also protected from potential damage from accidentally being bumped off a bed end. The all-in-one system can be easily and quickly moved between beds.
- The mattress can easily be converted to a hybrid mattress by adjusting the position of a built-in foam layer. Hybrid mode provides even greater comfort for the patient. It easily and quickly converts back into dynamic mode to step-up to complete pressure off-loading if required.
- The ProCair Prime is an all-in-one alternating pressure mattress with an integrated pump and is adaptable for different clinical needs.

**Warranty**  
3 Years

**Compliance**  
IEC 60601-1, IEC60601-1-2,  
IEC60601-1-11, BS7175 Crib 5
