

It is my pleasure to announce the launching of our web site. This is a work of love towards what brings people together: Communication, Knowledge, Sharing of Experiences, Interest and Appreciation of the Arts, Tradition and Culture.

Our website through its members will try to bring interesting and meaningful essays for all as well as informative facts.

Our goal is to create an interactive dialog amongst people of all ages, encompassing all the arts.

Our Motto will be:

*“Architecture and Music and Poetry and Ballet and Opera and Rock and Roll and all that brings good, respect and progress among all of us”.*

We hope that our approach will stimulate your interest, and that you will be proud to be part of this Endeavour, and try to make a difference for a better world.

All the programs we want to develop as it is underlined in our Trust program that can be found under “about us” will need financial support. As we said before the small drop fills the glass, therefore please consider making donations you can afford if you think that it is a worthy cause. We thank you for your consideration and support.

We are looking forward to your feedback, your ideas, and interesting stories as well as for spreading the word. Working together will open a wonderful avenue for achievements.

We thank you in advance for your interest, time, consideration, and willingness to become part of this journey.
