### Auto Body...Vehicle Assessment

Assessment starts by looking at how the impact was made. The direction of impact will change how the body bends and flexes, which will result in different underlying damage. The body of a vehicle is built as a self-supporting piece, then bolted to a frame that carries the engine, drivetrain and suspension components. All parts of the body contribute to its structure, so damage to one body part can affect the tire vehicle.

### Health Sciences...Presentation

Thank you to Ms. Valerie Watson, Director of the Southside Area Health Education Center for her presentation regarding the top health careers and resources for career growth.

### Cosmetology...More Roller Set

Roller sets are **roll-shaped hair tools that you wrap your hair around**, which set your hair into a curled style. ... You wrap your hair around the rollers, set it, and then take your hair down to reveal voluminous curls. Roller sets can be heated or without heat, which makes them perfect for many hair types.

### State Board Simulations

The Board for Barbers and Cosmetology licenses individuals and businesses that perform barbering, cosmetology, nail care, waxing, tattooing, body piercing, and esthetics. The Board also regulates individuals who teach and schools that provide training in those areas.

### Culinary Arts...Spaghetti Meal for Nottoway Middle School

Thank you to the staff of Nottoway Middle School for allowing our Culinary Arts students the opportunity to prepare a meal for their recent luncheon. The menu items included spaghetti, tossed salad, and garlic bread! The ANTC Culinary Arts program received the following response to the meal, "We would like to thank you for the spectacular lunch that you and your class provided our faculty and staff today. Everything was delicious, and everything was devoured. We had so many compliments from everyone on the spaghetti lunch."
