To whom it may concern:

In September of 2019, Richard Childers with FleetTax Recovery Specialists called on our company about helping us to retrieve some very unique transportation tax refunds. We are an Intermodal and Truckload carrier with a large fleet located in Greensboro, NC, where we service the Southeastern United States.

We were unaware of these unique refunds and were curious to explore further. Richard came in with a very nice approach with no investment from us, and no risk or obligation. We authorized FleetTax to pursue these refunds.

Walter Church, his partner came to our office and provided a very efficient and turnkey process. He took a couple days to complete his research & review. All we had to do was provide him access to our files, and Walter did the rest. On our behalf, Walter also met and resolved all inquiries from a Claims Representative, who requested an overview of our refund process.

We believe Richard and Walter to be very professional and efficient, with high integrity. FleetTax promised multiples of tens of thousands of rebate dollars for Rothrock, and they more than delivered.

Sincerely yours,

Steve McCormick, VP of Finance
