PowerTalk Panel Presenter #1
Michael Carlton, DTM/SPP

Speech Title: The Best Pet Option!

Description: In his early years in Toastmasters, one of his speech assignments was to incorporate visual aids. Being the shy speaker he is, he felt this would be an easy task for him, since he frequently used props in his presentations to take the attention off of himself and place it on the object he was showing; it was usually old and dirty car parts for his BNI Group.

For this particular speech assignment, he decided to incorporate Power Point into his presentation. Tonight, Michael will be re-visiting this presentation as it was given for his 6th Toastmasters assignment from the Competent Communicator Manual back in 2015.

Learning Objectives: N/A

Brief Bio: After 24 years in the auto industry, Michael sought out new opportunities in 2015, which lead him into the insurance industry. This transition allowed him the independence of self-employment and the flexibility required to be a single parent. His experience in the auto industry as a collision technician, auto mechanic, salesman, and manager, gives him unique experience in his new industry, especially during the claims process. His networking experience has also greatly benefited him through this transition.
