

PRESSURE

CARE

ACTION BED OVERLAYS

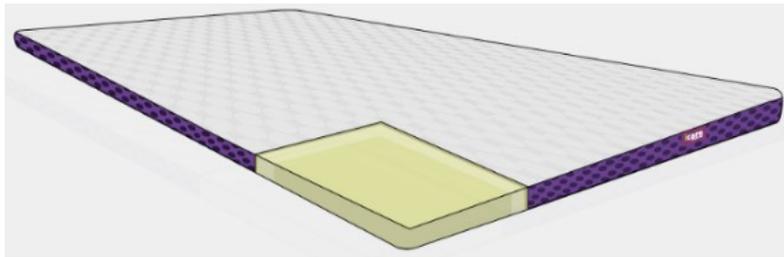

- Made of 100% Akton® polymer, these Mattress Overlays are used to cover the entire surface, or isolated areas, of an existing standard mattress.
- Used by hospitals and long-term care facilities as a significant component in prevention and treatment of decubitus ulcers, AKTON polymer will not migrate like gels, does not promote bacterial growth and is ideal for multiple client use.
- Some models are available with a Hook and Loop hitch used to secure one end of the overlay to the head of the bed. The hitch will reduce slippage when the bed is raised

Warranty
5 Year

ICARE ACTIVEX PRESSURE CARE OVERLAY

- The Icare ActiveX™ Pressure Care Overlay is designed to provide added pressure relief and comfort on an existing mattress. This overlay is heat and pressure sensitive causing them to soften around pressure points and inflamed areas.
- ActiveX™ is a high grade of elastic type foam that is responsive to a temperature around inflamed areas. ActiveX™ will become softer as it becomes warmer. So around a pressure point, it will always soften and allow the blood to circulate freely.
- Used to increase comfort on mattresses especially for short-term illness, recovery from surgery or for added comfort.
- Suitable for use on some alternating air mattresses. ActiveX™ Overlay's are often used to increase comfort and reduce heat loss when used with alternating air mattresses.

Warranty
1 Year

BETTERLIVING MATTRESS REPLACEMENT SYSTEM

- BetterLiving alternating pressure surfaces is a cost-effective solution for the prevention and management of pressure-related injuries
- Ideally suited to home care or aged care environments, these products can be used for people at risk to high risk of pressure injury
- No more concerns over correct pressure level settings with our AutoCair feature - automatic weight sensing technology that delivers fail-safe patient comfort levels
- Designed for basic ease of use and minimal maintenance. Easy to set up, simple to operate and straightforward to clean and maintain
- Conforms to all relevant Australian standards. Made using the best quality materials, every product must pass our stringent Quality Control inspection and regular testing protocols
- Essential features for pressure injury prevention and treatment
- Automatic pressure setting
- Replace existing mattress for superior therapy
- Cell in cell for enhanced user safety and comfort
- Easy to operate and maintain

PROCAIR PRIME MATTRESS REPLACEMENT SYSTEM

- No more concerns over correct pressure level settings with the AutoCair. This cyclic automatic weight sensing technology delivers fail-safe patient comfort levels.
- This all-in-one system has a combined mattress and pump with easy setup and does not require a bed end to hang a separate pump. The pump is also protected from potential damage from accidentally being bumped off a bed end. The all-in-one system can be easily and quickly moved between beds.
- The mattress can easily be converted to a hybrid mattress by adjusting the position of a built-in foam layer. Hybrid mode provides even greater comfort for the patient. It easily and quickly converts back into dynamic mode to step-up to complete pressure off-loading if required.
- The ProCair Prime is an all-in-one alternating pressure mattress with an integrated pump and is adaptable for different clinical needs.

Warranty

CUROCELL CIRRUS 2 ALT MATTRESS

- Active mattress aids in the treatment of pressure related injuries
- Fully automatic and flexible alternating pressure mattress replacement system with integrated heel function
- Unique wave like alternating process is particularly suitable for pain therapy
- Combines air and multiple layers of high quality foam to give a very high level of comfort and pressure distribution
- Fully automated pump individually adapts to the user to optimise pressure
- Silent pump has a user-friendly interface with audible and visible notifications
- Sound and light alarms for low pressure or power failure
- Air flow is controlled providing constant pressure, increased user comfort and energy reduction
- Cells are individually replaceable
- Unique CPR with rapid deflation/transport function
- Four-way stretch complies with European hygiene, quality and safety regulations and is vapour permeable and fluid resistant
- Mattress and cover are machine washable up to 95 degrees and can be tumble dried

INVACARE SOFTFORM PREMIER ACTIVE 2RX HYBRID MATTRESS

- High/Very High Risk. The Softform Premier Active 2 retains properties as a high risk static mattress but should clinical judgement determine that the patient requires stepping up to a dynamic surface.
- A discrete pump can be fitted to the air insert transforming the mattress into a dynamic surface and delivering additional levels of pressure relief.
- Using the pump allows stepping up and down between reactive and active alternating systems with minimum patient disruption
- Inflation of air cells alternates on a 10 minute cycle promoting tissue recovery and pressure distribution
- In the event of a power failure, the patient is still resting on a high risk pressure reducing surface

Warranty
2 Years

Compliance

CAIRMAX DUO FOAM AIR SUPPORT - HYBRID

- The CairMax Duo is a versatile foam air support surface with the ability to alternate between static or dynamic support, in response to the needs of the patient.
- Mattress functions as a static pressure relieving surface without the control unit, however when clinically required, it can step up to provide dynamic support with the control unit connected.
- No concerns over correct pressure level settings with AutoCair automatic weight sensing technology, delivering fail-safe patient comfort and support.
- This plug and play system is very simple to use and requires minimum training to operate, making it ideal for community or aged care use.

AREACARE PLUS PRESSURE SURFACE MATTRESS

- The three-layered zoned design of this very high-risk pressure surface is ideal for patients with poor mobility or uncertain skin sensitivity.
- A top layer of high density, temperature-sensitive, memory foam conforms to the body's shape, working in combination with the higher resistance support layer to disperse pressure evenly.
- The top layer also incorporates a special immersion, slow recovery foam foot zone for the ulcer prone heel area.
- Three-layer zoned design with a hinge to suit profiling bed
- Multi-density foam layers for maximum strength and comfort; protected by a cotton inner lining
- Vapour permeable, bacteriostatically treated, fire retardant and water-resistant top cover
- Four-way stretch cover material for enhanced anti-shear and anti-friction benefits
- Waterfall skirt to protect from moisture ingress; welded and taped seams for infection control

ICARE IC20 ACTIVEX MATTRESS

- The middle of the range IC20 proves to be popular for most.
- The medium feel provides a soft feel but excellent support.
- How pressure care works with the IC20: The IC20 mattress is heat and pressure sensitive which means that as it gets warmer it becomes softer. So when there is a pressure point developing which usually gets hot and enflamed, this area of the mattress will become softer which allows the blood to flow freely again.
- Antcrease XP base to allow easy contour for any profiling bed.
- Waterlow ≤ 20 .
- Immersion Rating: Medium.
- High Risk - This rating is based on our average peak pressure of $< 19\text{mmHg}$.
- Pair with an Icare bed or suitable on any base platform.

ASPIRE CONFIMOTION MEMORY FOAM MATTRESS

- The ComfiMotion Memory Foam mattress contours to the users body, providing personalised comfort and transitional pressure relief.
- Integrated side-walls increase roll resistance at the bed edge and assist users, partners or carers with extra rigidity to ease bed entry and exit.
- Contoured Immersion - Specially layered memory foam provides contoured immersion for support and pressure relief.
- Superior breathability - Up to 8x more breathable than conventional memory foams.
- Anti-microbial - Environmentally safe treatment is added to the foam which reduces odours and kills 99.9% of bacteria.
- Eco-friendly GECA Foam is produced using cleaner chemicals and production technology

REPOSE CONTUR ACUTE

- Combines enhanced comfort with pressure area care.
- Repose Contur is a pressure redistribution cushion overlay for riser recliner chairs utilising the Repose tried and trusted inflatable air cell and 'smart valve' technologies.
- Offering pressure area care to the seat, back and leg sections, it secures to the chair easily and safely with straps and thus it can either be fitted to new chairs or be a straightforward retro-fit for users who already have a chair and require a specialist support surface.

ROHO CUSHIONS

- ROHO cushions have an air-cell design that keeps you in place while moving as you do, constantly adjusting to your body.
- It's called DRY FLOATATION® technology and it's a ROHO product exclusive. These specially developed and adjustable air cells mimic the properties of water and ensure your body is immersed and enveloped to give outstanding pressure distribution.
- Each cushion has multiple air cells made of a soft, smooth, and pliable material that reduces shear and friction.
- Some even have anatomically shaped contours or hybrid foam bases, to offer individuals additional support and stability.
- What truly sets a ROHO cushion apart is the airflow between the cells allowing the cushion to adjust and adapt to the individual, providing a comfortable seat that accommodates new positions, daily movements, and body changes over time.

ACTION PILOT CUSHION WITH BASIC COVER

- The ACTION Pilot Cushion is Low-Profile cushion that provides exceptional pressure relief for users with a history of pressure sores. 2.54cm Akton Polymer provides immersion for bony prominences and protects clients with fragile skin integrity.
- This Multi-use Cushion is recommended for use on Manual and Power Wheelchairs, or any other seat requiring significant reduced Hi-Pressure areas, vibration and shear.
- The Low-Profile allows users to effectively reach floor for more efficient cushions to maximize stability and positioning when required.
- Custom sizes are available.
- The cushion comes with a basic cover, though an incontinent cover is also available.
