

Fireside Fellowship:

Life of God:

1. Sanctification is the process of giving up everything to the control of the Holy Spirit in our lives. What are some things that keep us from giving up control to the Holy Spirit?
2. We are to never stop growing in our love for our spiritual family. What are some growth areas in your life that you can ask God to sanctify?
3. Living a sanctified life means living in peace and unity with our fellow disciples of Christ, even making it our ambition to do so. Do you agree? Why or why not?
4. How is gossip, grumbling and complaining opposite to walking in the Spirit?
5. Why is idleness and laziness in opposition to following Jesus as His disciple?
