

## KCS 3rd Sub Crew Assignment

On duty -	Time: 0600
	Location: Watts, OK

### Pool Crew 3 - PM Local: Sallisaw Dodger

Pick up throttle and train card for train 1 in Watts (keep throttle throughout session.) You will be the first SB to depart. On arrival in Heavener, after releasing your train, run the next NB. Continue running trains between Watts and Heavener until Heavener Yard finishes building the Sallisaw Dodger (should be by 11:45 - start asking the yard about status after 10:30 am). Then pick up train and paperwork for train SSD, the Sallisaw Dodger, at Heavener.

#### Marking up/Starting a run:

Get train card or switchlist, confirm lead loco number.

**Select loco on throttle: dial up all 4 digits, then press "SEL".**

**Contact the Dispatcher:**

Always start with "Train (*your #*) calling Dispatcher, over."

**Departing:** "Train (*#*), Engineer (*name*) ready to depart (*location*) for (*next scheduled stop or destination*), over."

#### Handing off trains at end of run:

**In Heavener,** follow yardmaster's instructions, release loco only when yardmaster instructs you to do so.

**In Watts,** pull train completely past control signals, then release.

**Release locos -** Dial "0000" on your throttle to release.

**Paperwork:** leave in "Completed" stack at destination.

**Contact Dispatcher:** "Train (*#*) tied down at (*location*)."

#### When running through trains across the territory:

After completing a run, pick up next train at same location.
