

Amelia-Nottoway Technical Center

Friday News 8-28-2020

Have you had a chance to visit Amelia-Nottoway Technical Center (ANTC) lately? Our office, main hallway, and some classrooms have all had recent makeovers. New paint and flooring have created a physical space that our students can be proud of and will inspire them to work hard. Also, health screening stations have been installed to ensure the health and wellness of the ANTC community.

At ANTC, we are committed to creating an environment where all students have the opportunity to experience success. We endeavor to provide a culture that inspire dreams and Cultivate Career Ready Citizens through Education, Empowerment, and Employment.
