# Courses for Dental Nurses

National  
Examining  
Board for  
Dental Nurses.

*Accredited Course Provider*

# **Welcome to Molar Mentoring**

Established in 2016 by Heidi Grimwood, Molar Mentoring are fully accredited by the NEBDN to deliver dental nurse courses including the NEBDN National Diploma in Dental Nursing, the first step in your dental career.

## **Mission Statement:**

Molar Mentoring are the leading team in education for dental nurses.

Our mission is to create and encourage a positive impact on each Molar Mentoring students life.

We encourage, inspire and motivate.

Our vision is to provide the best training experience for all dental nurses.

# National Examining Board for Dental Nurses®

**The NEBDN is the leading provider of qualifications for dental nurses in the UK, delivering awards in both pre-register and post-registration areas**

The NEBDN National Diploma in Dental Nursing is a General Dental Council (GDC) recognised dental nursing qualification which covers all outcomes described within the GDC Preparing to Practice document.

The purpose of the qualification is to prepare trainee dental nurses in the foundations of dental nursing so they can demonstrate the highest standards in terms of knowledge, skills and professional attributes.

This curriculum is based on the GDC registration requirements for dental nurses and the national occupational standards for dental nursing published by Skills for Health. It sets out the knowledge, skills and behavioural requirements that should be developed and demonstrated. These are set out in terms of professional knowledge and competence.

## Assessment and Examinations:

Assessments during training and in the NEBDN Examination will cover any of the knowledge and performance competencies set out in the curriculum – indeed, most if not all of them will be assessed at some stage of training or in the examination.

The qualification is assessed using a formative workplace assessment, the Record of Experience (ROE), which enables the workplace team to become an integral part of the training of the trainee dental nurse.

The aim of the Diploma examination is to assess knowledge and decision making to demonstrate that the candidates understanding and competency shows that they are safe to practice as a dental care professional.

The first part consists of a written paper containing a mixture of Single Best Answer questions in the form of Multiple Choice Questions (MCQs) and Extended Matching Questions (EMQs).

The second part of the examination consists of an Objective Structured Clinical Examination (OSCE) which is designed to assess the candidate's clinical skills and competencies.

# The NEBDN National Diploma in Dental Nursing

## Modules:

1. Professionalism and the role of the Dental Nurse
2. Health and Safety
3. Dealing with Medical Emergencies
4. General, Dental and Regional Anatomy
5. Oral Disease
6. Prevention of Oral Disease
7. Oral Assessment
8. Restorative Dentistry
9. Child Dental Health
10. Minor Oral Surgery
11. Pain and Anxiety Control

*Once you have successfully completed your qualification with NEBDN you will gain registration with the dental regulating body the General Dental Council (GDC).*

## Further Course Information:

No previous experience or qualifications are required. In fact, we can help you gain employment in a dental surgery if you need a training place.

The course duration is 12 months although this can be extended to suit each individual learner and practice.

One full day a month in the classroom/online, all learning styles catered for.

Homework is provided in workbooks and revision guides, you will receive support with these.

All RoE (Record of Experience) observations are completed in surgery, with assistance from us if necessary.

Exams take place in April and November each year.

Support is available 24/7 by email, text and phone.

## Testimonials:

"I have been studying with Heidi since May 2018. She has been very helpful throughout the course and I couldn't recommend her enough. The lessons are enjoyable and she is very approachable if you are struggling with anything. I currently work in a dental practice and it's the best thing I have ever done as I love my job."

***Rachel Howell - Facebook***

"I am so glad I chose Heidi (Molar Mentoring) over any other course provider, she is such a wonderful tutor who helps and explains everything to you which gives you confidence. She is friendly, experienced, easy to approach and talk to and really helpful! 10\* tutor."

***Beth Forrest - Facebook***

"I came across a recommendation for Heidi CPR/AED annual training on a Facebook page. I contacted her and was responded to almost instantly. Booking was very easy. Heidi delivered an informative and interactive training session for the team. She was approachable and knowledgeable and answered any questions we had. Highly recommend. Thanks again Heidi"

# **Your CPD (Continual Professional Development)**

***“CPD” means continuing professional development through learning, training, or other developmental activities which...  
(a) can reasonably be expected to maintain and develop a person’s practice as a dentist or dental care professional; and  
(b) is relevant to the person’s field of practice.’  
- General Dental Council***

The GDC has set mandatory, verifiable CPD hours for each category of registrant. By completing your CPD, you will keep your knowledge and skills up to date and demonstrate that you can work safely and appropriately with the general public.

The legal requirement for dental nurses is a minimum of 50 hours verifiable CPD per CPD cycle (5 years) .
