FOOD ALLERGY AWARENESS MONTH

Every May, FARE (Food Allergy Research & Education) hosts a nationwide Food Allergy Awareness Week to shine a spotlight on the seriousness of food allergies and to improve public understanding of this potentially life-threatening medical condition. By increasing awareness, we can encourage respect, promote safety, and improve the quality of life of the 15 million Americans affected by food allergies and anaphylaxis. This year's Food Allergy Awareness Week is May 8-14 and the theme is "Food Allergies: React with Respect".

A food allergy reaction sends someone to the ER every 3 minutes. It could happen to one of your friends, family members or coworkers. Sometimes food allergies are mocked or made light of in the media and in real life. The goal of Food Allergy Awareness Week is to help inform the public about the serious

consequences of food allergy reactions, as well as how to identify symptoms and respond in case of an emergency.

FARE encourages all of us to "react with respect" the next time someone tells you about their food allergies or the allergies of someone they love. To learn more, go to foodallergy.org.

FOOD VENDORS RETURN TO OPEN HOUSE!

ST. BALDRICK'S SUCCESS!

You helped raise over \$48,000 for childhood cancer research!

The St. Baldrick's head-shaving event returned to Coyote Ridge on Friday, March 11th. Whether you decided to SHAVE your head (81 Shavees!), FUNDRAISE only (17 students, 7 adults and 34 teachers!), VOLUNTEER at the event (30+) or DONATE, you played an integral part of raising over \$48,000 for childhood cancer research! If you missed your chance, it's not too late to donate: <https://www.stbaldricks.org/events/CoyoteRidge2016>.

This year we honored two young girls who are currently battling cancer in our community, **Avelin Q.** and **Kaliya C.** Kaliya is a student at Coyote Ridge.

It means they are raising money to do two important things:

St. Baldrick's mission is to be committed to funding the most promising research to find cures for childhood cancers and give survivors long, healthy lives. So what does the mission mean at St. Baldrick's?

- To find new cures for all types of childhood cancer, and
- To make treatments less toxic, so that patients don't suffer so much and survivors don't have to live with such long-term effects.

Thank You to **AdvoCal** for your assistance in the production of this newsletter all year long!

TIC TAC TOE

DID YOU KNOW???

- Summer is by far the busiest time at movie theaters.
- In the summer's heat, the iron in France's Eiffel Tower expands, making the tower grow more than six inches.
- Popsicles were accidentally invented by an 11-year-old boy in San Francisco in 1905. He left a glass of soda sitting outside and by the next morning the soda had frozen. He began selling them at an amusement park.
