Available in **Orange Cream** & **Strawberry Banana**

**JOINT
SUPPORT**

**SKIN & HAIR
HEALTH**

**HEALTHY
AGING**

Repair, Rebuild, Rejuvenate

Hydrolyzed type 1 collagen peptides that provide the most absorbable, abundant collagen for your body's needs.

Benefits of Glow

Antioxidant Support

Fights free-radical damage at the cellular level.

Skin, Hair and Nail Support

Helps support skin elasticity and firmness by reducing wrinkles and cellulite, and it builds thicker, healthier hair and strengthens nails.*

Joint Health

Reduces joint stiffness and improves mobility.*

Strength, Beauty, Confidence

Collagen is a structural protein in your body. It helps support healthy bones, muscles, organs, skin, and more. As we age, our body's ability to produce collagen begins to wane, which can lead to stiffness, swollen joints, sagging skin, wrinkles, and brittle hair and nails.

Glow increases your body's collagen reserves for improved joint health, more youthful-looking skin, thicker hair, stronger nails, and a more beautiful, confident you!*

Advanced Formula

Glow is formulated with grass-fed, **hydrolyzed type 1 collagen**, which has been broken down into easily digestible peptides. In this format, it's able to be quickly absorbed and used by the body.*

Glow is also the first to combine the rejuvenating power of collagen peptides with a proprietary blend of eight super-antioxidant, high-ORAC fruits to help protect the body against environmental damage caused by free radicals and oxidative stress.*

We source a specific type of prime-grade, grass-fed and pasture-raised bovine for the protein in Glow.
