standard-sized doors

Up to 2.44m wide

[phantom-screens.co.uk](http://phantom-screens.co.uk)

The perfect combination of solar shading and fresh air ventilation

Provides insect protection without obscuring your view

Available in a variety of colours to suit your décor

Ideal for hardwood, aluminium and PVC-U doors

## Let fresh air in and keep insects out

Enjoy the freedom of being able to keep your home cool and fresh without the intrusion of pests with Phantom Screens' retractable door screens. Engineered to the highest standards, the Legacy door system allows you to enjoy the view and let fresh air into your home whilst keeping unwelcome visitors at bay and providing privacy and solar protection. All screens are professionally installed by your local design and fitting expert and come in a range of options which are both practical and stylish.

- Phantom Screens' high quality components ensure years of trouble-free operation.
- The Legacy fits most door sizes and types including sliding, in-swing, out-swing and double doors.
- The soft close system ensures screens slide gently back into their housing.
- Low profile housing blends in with your existing door frame.
- Screens come in a variety of colours and finishes to match your existing décor.
- Our durable mesh resists sagging and tearing.
- All screens come with a Phantom Lifetime Warranty.

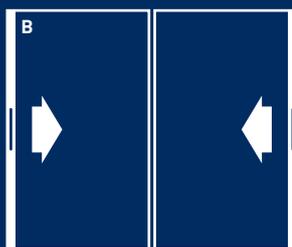

### A. Single Door

Max width: 1.22m  
Height: 0.45m–2.5m

### B. Double Door

Max width: 2.44m  
Height: 0.45m–2.5m

### Colours

Alongside our standard white frames, Phantom Screens offer a colour matching service to make sure your screens perfectly compliment your décor.

### Mesh and Fabric

Phantom Screens recommend our stiffened 18/14 mesh for doors. Please talk to your local design and fitting expert to discuss mesh for specific uses.
