

## AFXF's Goals

### Organize Events

Organize SD, OC, & LA's Annual Autism Parades, Run Walk n Roll 5K, Festival to raise awareness, destigmatize, and embrace the ASD community

### Coordinating Resources

Add more local nonprofits and profits to our resource fairs and expand our volunteer staffing

### Bring NUNZIA to market

Bring NUNZIA Pharmaceutical's therapeutic supplement to its final phase by completing all FDA requirements

### Fundraising & Therapies

Raise money to connect people to professionals such as psychiatrists or psychologists along with therapies such as ABA Therapy, Physical Therapy, Massage Therapy, Behavioral Therapy, Art Therapy, Equestrian Therapy, Swimming & Surfing therapy, and other Wellness Therapies

## Fun Future Goals

- Open a Summer Athletic, Arts, and Music Camp with a fully-equipped medical staff for children and young adults.
- Help re-open and fund the **AFXF Kids Club** and **AFXF Club** among community colleges.
- Open **Sarah's Attic Retail & Thrift Store** to self sustain the foundation. You can donate every Friday, and we welcome you to join us during our Grand Opening on September 2nd, 2022!

## Contact us!

### Share your Story

*Are you or a loved one diagnosed with ASD? We'd love you to share your experience in our Quiet Pzazz Magazine!*

### Advertise Services

*Do you have any experience working with children on the spectrum? We'll happily include you in our Quiet Pzazz Magazine!*

### Volunteer/Sign up for Events

*Does raising awareness, destigmatizing, and embracing the ASD community matter to you? Join us!*

### Donate or Sponsor

*You can connect with us to sponsor events and/or donate on our website, via phone, email, or mail your check to the address below:*

## Mission Statement

AFXF aims to empower people on the autism spectrum through:

- Research and Development
- Connections to treatment resources
- Coordinating fun and educational events
- Recruiting volunteers who want to help

Every barrier that we can help autistic adults break down today will be one an autistic child won't have to face in the future. Your heartfelt donations, sponsorships, and participation as non-profits, volunteers, or staff members function together to create these necessary changes.

Our hearts guide our desires to help children, adults, and veterans find new beginnings. Let your heart guide you too.

## About Us

The **Autism Fragile X Foundation (AFXF)** (a 501(c)(3) non-profit organization) has many goals. Through community outreach, resource fairs, and profit-sharing we have been able to spread awareness about Autism Spectrum Disorder (ASD), Fragile X Syndrome, and anxiety-based disorders (such as PTSD, OCD, etc).

Furthermore, we are also working with biotechnology companies in the US to support the research and development of supplements, pharmaceuticals, and diagnostic tests that will aid millions of the people we aim to empower.

We started working with **Global WholeHealth Partners** after they received the licensing rights to sell the only Whole Blood Rapid Diagnostic Test for ASD. Most diagnostic screenings for ASD are prohibitively expensive and time-consuming, but this rapid blood test aims to help providers and patients have answers more quickly while saving money.

We've also been supporting **NUNZIA Pharmaceutical** in their development of therapeutic nutraceutical supplements that are non-addictive, have no known side effects, and have no cross-reaction with alcohol. We will continue to support them as they go through all the necessary clinical trials to gain FDA approval.

## Support of Biotechnologies

Many neurodivergent people and people with mental disorders become familiar with the unfortunate trial and error "shot-gun" approaches towards finding proper medications, as well as some common medications seeming more like "chemical straitjackets" than paths towards health and wellness.

AFXF has been working with Nunzia Pharmaceutical to develop Nunzia™ which was formulated with a unique blend of herbal ingredients that naturally and safely adapt their functions within the body based upon the specific needs of each individual. It primarily works to balance the levels of glutamate within the Hippocampus (a sea-horse-shaped area of the brain where memories connect to emotions). This, in turn, may provide alleviation from the many negative and sometimes debilitating symptoms of cognitive issues and anxiety-based disorders\*.

Several studies indicate that Nunzia™ may have helped individuals by improving their memory, fine motor skills, attention spans, and speech abilities. Nunzia aims to empower people by easing their restlessness, anxieties, compulsions, and low moods so they may instead nurture their creativity, focus, attention, behavioral flexibility, cognitive speed, and memory\*.
